CHAPTER 1 INTRODUCTION

General

The “Edit Rules Documentation” is an integral component of the larger body of documentation about statistical data reported to GISA SSP under the Automobile Statistical Plan, under special Facility Association requirements and under the additional requirements of the Underwriting Information Plan (“UIP”). The “Edit Rules Documentation” is a description of all of the edits performed on this data. The purposes of this documentation are:

1. **To assist insurers with error correction:** Users can look up an error code to determine which edit generated the error. On pages describing errors related to Validity edits, users are able to link directly to the relevant Automobile Statistical Plan field codes.
2. **To assist insurers with the design and development of system processes related to the reporting of statistical data:** Users can consult the cross-reference tables to view the Validity edit/error code and Consistency edits/error codes associated with a particular field, as well as a list of other fields affected by the Consistency edits.
3. **To provide specifications regarding edit rules for the design and development of GISA SSP’s processes for editing statistical data:** The “Edit Rules Documentation” describes all of GISA SSP’s processes for editing data reported under the Automobile Statistical Plan, including Underwriting Information Plan data.

Edit Types

GISA SSP performs two types of data edits.

Validity Edits

Validity edits ensure that the content of a particular field is valid against a pre-determined list of values or range of values. A Validity edit includes a Context edit, whereby the content of a particular field is checked for its validity in certain standard contexts (e.g., Policy Effective/Accident Date, Jurisdiction, etc.), e.g.

A valid No-Frills Indicator reported in a jurisdiction other than New Brunswick is a Context error, although the field contains a valid value.

Validity edits are developed based on individual Field Code tables in the ASP, with context edits based on the dimensions identified on each Field Code table.

Consistency Edits

Consistency edits ensure that the content of a particular field is valid in relation to the content of other fields in the same record.

These edits may be developed by comparing fields with valid values as well as comparing fields to expected business circumstances.

Editing Sequence

GISA SSP sequences edits to ensure that they are performed as thoroughly as possible. Validity edits, including Context edits, typically precede Consistency edits.

The content of the following key fields must be correct before the editing process can begin:

- Company Number
- Entry Date
- Statistical Plan
- Transaction Type (from which Kind – i.e., Premium/Claim – is derived)
- Statistical Territory (from which Province is derived)

Error Codes

Error codes are assigned in a predefined format that labels them as ASP, UIP or FA errors, as well as Validity or Consistency type errors. Error code formats are further defined in both the “Validity Edits” section and the “Consistency Edits” section.

Standard Characters

Several tables in the “Validity Edits” and “Consistency Edits” sections refer to standard characters, which are as follows:

- A – Z, a – z, 0 – 9, blank, period (.), plus (+), ampersand (&), dollar sign ($), asterisk (*), dash (–), slash (/), comma (,), percent sign (%), number sign (#), and “at” sign (@).

CHAPTER 2 VALIDITY EDITS

This section contains descriptions of the Validity edits. All allowable values for a field or a portion of a field are indicated.

The error codes are used as page numbers, or page number prefixes where the description of a particular error covers multiple pages. Each error code page contains a hyperlink to the corresponding page of valid values in the Automobile Statistical Plan.

Validity Error Codes

Validity error codes are 5-character codes in the format X999X and with meanings as set out in the table below:

Position	Meaning	Values
1	Type of error	A = ASP field (Validity edit) U = UIP field (Validity edit) F = FA field (Validity edit)
2	Subject area for Validity error codes	1 = Submission control 2 = Policy 3 = Policyholder 4 = Vehicle 5 = Operator 6 = Coverage 7 = Claim detail 8 = Claim participant 9 = Future subject area for Validity edits
3 – 4	Error code number	01 – 99
5	Error code suffix (see additional details below)	V = Value/format error C = Context error

Error code suffix

The error code suffix allows insurers to identify the nature of the error very quickly. The possible suffixes are as follows:

- **V:** Denotes a value/format error; the reported value is not valid for this particular field, or the data is not reported in the required format. For example:
- A numeric field is reported left justified, when it is supposed to be right-justified.
- The number of characters is incorrect.
- **C:** Denotes a context error; the value reported is not valid in the appropriate context stipulated in the Automobile Statistical Plan. (Context edits use the standard dimensions/conditions stated in the

Automobile Statistical Plan – i.e., Vehicle Class, Province, Policy Effective Date, Accident Start/Stop Dates).

An additional suffix “x” may be added to the Validity Error Code denoting a value/format soft error; the error relates to a UIP field and is not critical. Although soft errors are not required to be corrected, companies are encouraged to review them and correct them in their internal systems and GISA SSP’s database.

Context Edits

The applicable valid conditions are represented in a table with corresponding valid values; if a table entry for a field under Conditions is blank, it should be read as applying to ALL conditions for that particular field.

A101 – Record Format Version Number

Premium / Claim

Record Format Version Number is in error due to:

- Value/Format: A101V
- Conditions:

The **Record Format Version Number** must have one of the valid values in the table below with the corresponding conditions, if any, on the same record.

Record Format Version Number	
Values	**Conditions**
001, 002	

A105 – Transaction Type

Premium / Claim

Transaction Type is in error due to:

- Value/Format: A105V
- Conditions: A105C

The **Transaction Type** must have one of the valid values in the table below with the corresponding conditions, if any, on the same record.

Transaction Type		
Values	**Conditions**	
	Policy Effective Date	**Statistical Plan**
1, 2, 4, 7, 8, J, K, M, P, Q		
3, L		9
	≥ 20260701	8

A199 – Reserved and Unused Field

Premium / Claim

Reserved and Unused Field in the Submission Control segment of the record is in error due to:

- Value/Format: A199V
- Conditions:

The **reserved and unused fields in the Submission Control segment of the record** must have the valid value in the table below.

Reserved and unused fields in the Submission Control segment of the record	
Values	**Conditions**
Blank	

A201 – Policy Control Id

Premium / Claim

Policy Control Id is in error due to:

- Value/Format: A201V
- Conditions:

The **Policy Control Id** must have one of the valid values in the table below with the corresponding conditions, if any, on the same record

Policy Control Id	
Values	**Conditions**
Standard characters, blank	

A202 – Policy Identification Digit

Premium / Claim

Policy Identification Digit is in error due to:

- Value/Format: A202V
- Conditions:

The **Policy Identification Digit** must have one of the valid values in the table below with the corresponding conditions, if any, on the same record.

Policy Identification Digit	
Values	**Conditions**
Standard character, blank	

A203 – Policy Identification

Premium / Claim

Policy Identification is in error due to:

- Value/Format: A203V
- Conditions: A203C

The **Policy Identification** must have one of the valid values in the table below with the corresponding conditions, if any, on the same record.

Policy Identification	
Values	**Conditions**
	Policy Effective Date
Standard characters in position 1 – 11	< 20080101
Standard characters in position 1 – 20 At least one non-blank character starting at position 1	≥ 20080101

A204 – Policy Effective Date

Premium / Claim

Policy Effective Date is in error due to:

- Value/Format: A204V
- Conditions: A204C

The **Policy Effective Date** must have one of the valid values in the table below with the corresponding conditions, if any, on the same record.

Policy Effective Date				
Values		**Conditions**		
		Statistical Territory (Province)	**Transaction Type**	**Policy Effective Date**

A205 – Endorsement/Cancellation Date

Premium

Endorsement/Cancellation Date is in error due to:

- Value/Format: A205V
- Conditions: A205C

The **Endorsement/Cancellation Date** must have one of the valid values in the table below with the corresponding conditions, if any, on the same record.

Endorsement/Cancellation Date				
Values		**Conditions**		
		Statistical Territory (Province)	**Policy Effective Date**	**Endorsement/ Cancellation Date**

A206 – Policy Expiry Date

Premium

Policy Expiry Date is in error due to:

- Value/Format: A206V
- Conditions: A206C

The **Policy Expiry Date** must have one of the valid values in the table below with the corresponding conditions, if any, on the same record.

Policy Expiry Date			
Values		**Conditions**	
		Statistical Territory (Province)	**Policy Effective Date**

CHAPTER 3 CONSISTENCY EDITS

This section contains descriptions of the Consistency edits – all of the edit rules GISA SSP uses to ensure that the content of a particular field is valid in relation to the content of other fields in the same record.

The error codes are used as page numbers or page number prefixes where the description of a particular error covers multiple pages.

Consistency Error Codes

Consistency error codes are 5-character codes in the format X9999 and with meanings as set out in the table below:

Position	Meaning	Values
1	Type of error	B = ASP field (Consistency edit) C = UIP field (Consistency edit) D = FA field (Consistency edit)
2	Defaults to ‘9’ on Consistency error codes	9 = Used for Consistency edits
3 – 5	Error code number	001 – 999

A suffix “x” may be added to the Consistency Error Code denoting a soft error; the error relates to a UIP field and is not critical. Although soft errors are not required to be corrected, companies are encouraged to review them and correct them in their internal systems and GISA SSP’s database.

B9001 – Endorsement/Cancellation Date vs. Transaction Type

Premium

If **Endorsement/Cancellation Date** is blank, the only valid transactions are: New and Renewal.

Edit Procedure

If **Endorsement/Cancellation Date** has the value shown in the table below, then the **Transaction Type** must have one of the corresponding values in the table.

Endorsement/Cancellation Date	Transaction Type
Blank	1, 3

If **Transaction Type** has the value shown in the table below, then the **Endorsement/Cancellation Date** must have one of the corresponding values in the table.

Transaction Type	Endorsement/Cancellation Date
2, 4, J, K, L, M	CCYYMMDD

B9002 – Third Party Liability Coverage Code or Third Party Liability BI Coverage Code vs. Exposure

Premium

For **Third Party Excess Liability Coverage, Exposure** is not required.

Edit Procedure

If **Third Party Liability Coverage Code** or **Third Party Liability BI Coverage Code** has the value shown in the table below, then the **Exposure** must have one of the corresponding values in the table.

Third Party Liability Coverage Code or Third Party Liability BI Coverage Code	Exposure
69	Blank or zero

B9003 – Policy Effective Date vs. Third Party Liability Driving Record, Accident Benefit Driving Record, Collision/All Perils Driving Record

Premium

If **Driving Record** “7” (i.e. Attached Trailer) is reported for any coverage, all other reported **Driving Records** must also be Attached Trailer (i.e. **Driving Record** “7”).

Edit Procedure

If **Policy Effective Date** has the value shown in the table below and any of the **Driving Record** fields have the non-blank value, then the other two **Driving Record** fields must have one of the corresponding values in the table.

Policy Effective Date	Third Party Liability Driving Record	Accident Benefits Driving Record	Collision/All Perils Driving Record
< 20080101	7, Blank	7, Blank	7, Blank

B9004 – Collision/All Perils Coverage Code vs. Comprehensive/Specified Perils Coverage Code

Premium

If vehicle is insured under **All Perils, Comprehensive/Specified Perils** coverage is included and must not be reported.

Edit Procedure

If **Collision/All Perils Coverage Code** has one of the values shown in the table below, then **Comprehensive/ Specified Perils Coverage Code** must have the corresponding value in the table.

Collision/All Perils Coverage Code	Comprehensive/Specified Perils Coverage Code
40 – 49, 410 – 415, 420, 426 – 428, 499	Blank

B9005 – Comprehensive/Specified Perils Coverage Code vs. Collision/All Perils Coverage Code and Other Coverages

Premium

If **Specified Perils Single Interest** or **Confiscation/Conversion** coverage is reported, no other coverage may be reported on the same transaction, except **Collision Single Interest**.

Edit Procedure

If **Comprehensive/Specified Perils Coverage Code** has one of the values shown in the table below, then **Collision/ All Perils Coverage Code** and all other **Coverage Codes** must have one of the corresponding values in the table.

Comprehensive/Specified Perils Coverage Code	Collision/ All Perils Coverage Code	Other Coverage Codes*
91, 92	91 or Blank	Blank

***Other Coverage Codes:**

B9007 – Collision/All Perils Coverage Code or Claim Coverage Code vs. Type of Use

Premium / Claim

For **Collision Garage Owners' Legal Liability** coverage, only specific garage **Type of Use** can be reported.

Edit Procedure

If **Collision/All Perils Coverage Code** or **Claim Coverage Code** has the value shown in the table below, then **Type of Use** must have one of the corresponding values in the table.

Collision/All Perils Coverage Code or Claim Coverage Code	Type of Use
51	81 – 82, 84 – 86, 89

B9008 – Comprehensive/Specified Perils Coverage Code or Claim Coverage Code vs. Type of use

Premium / Claim

For **Comprehensive/Specified Perils Garage Owners' Legal Liability Coverage**, only specific garage **Type of Use** codes can be reported.

Edit Procedure

If **Comprehensive/Specified Perils Coverage Code** or **Claim Coverage Code** has the value shown in the table below, then **Type of Use** must have one of the corresponding values in the table.

Comprehensive/Specified Perils Coverage Code or Claim Coverage Code	Type of Use
52, 53	81 – 82, 84 – 86, 89

B9009 – Type of Use vs. Coverage Codes

Premium / Claim

Only major coverages: i.e. **TPL/TPL BI** (except **Excess Liability**), **TPL PD, DCPD, Accident Benefits and Collision/All Perils** (except **Garage Owners' Legal Liability, Single Interest**) and **Uninsured Automobile** can be reported for **Occasional Operators**.

Edit Procedure

If **Type of Use** has the value shown in the table below, then the **Coverages** listed in the table must have one of the corresponding values.

Type of Use	Coverage	Values
04-06	Third Party Liability Coverage Code	NOT = 69
	Third Party Liability BI Coverage Code	
	Collision/All Perils Coverage Code	NOT = 51, 91
	Comprehensive/Specified Perils Coverage Code	Blank
	Underinsured Motorist Coverage Code	
	Claim Coverage Code	NOT = (00 – 03, 05 – 09, 0A, 0B, 0C, 0D, 0E, 16, 20 – 29, 51, 52, 53, 69, 80 – 89, 91, 92, 210 – 215, 220, 226 – 228, 299, 810 – 815, 820, 826 – 828 or 899)

B9010 – Third Party Liability Coverage Code or Third Party Liability BI Coverage Code vs. Other Coverages

Premium

Excess Liability Coverage is an extension of **TPL / TPL BI**, and cannot be reported together with other coverages.

Edit Procedure

If **Third Party Liability Coverage Code** or **Third Party Liability BI Coverage Code** has the value shown in the table below, then all other **Coverage Codes** must have the corresponding value in the table.

Third Party Liability Coverage Code or Third Party Liability BI Coverage Code	Other Coverage Codes*
69	Blank

***Other Coverage Codes:**

- Accident Benefits Coverage Code
- Accident Benefits M, R & AC Coverage Code
- Optional Accident Benefits CI Sub-coverage Code
- Optional Accident Benefits C Sub-coverage Code

- Accident Benefits IR&OM Coverage Code
- Accident Benefits D&RE Coverage Code

B9011 – Entry Date vs. Policy Effective Date

Premium / Claim

Policy Effective Date cannot be more than 40 years earlier than the **Entry Date**.

Edit Procedure

Entry Date and **Policy Effective Date** must have the corresponding values shown in the table below.

Entry Date	Policy Effective Date (CCYYMMDD)
CCYYMM	≥ **Entry Date** minus 40 years

B9012 – Collision/All Perils Coverage Code, Comprehensive/Specified Perils Coverage Code or Claim Coverage Code vs. Type of Business, Type of Use, Driving Records and Exposure

Premium / Claim

For **Collision** or **Specified Perils Single Interest coverage** reported, **Type of Business, Type of Use, Exposure** and **Driving Records** are not required.

Edit Procedure

If **Coverages** listed in the table below have the corresponding values, then **Type of Business, Type of Use, Driving Records** fields and **Exposure** must have the corresponding values in the table.

Coverage		Type of Business	Type of Use	Driving Records*	Exposure
Field	Values				
Collision/All Perils Coverage Code	91	Blank	Blank	Blank	Blank or Zero
Comprehensive/Specified Perils Coverage Code	91, 92				
Claim Coverage Code	91, 92	Blank	Blank	Blank	N/A

*Driving Records

- Accident Benefits Driving Record
- Collision/All Perils Driving Record
- Third Party Liability Driving Record
- Claim Driving Record

B9013 – Type of Use vs. Third Party Liability Coverage Code or Third Party Liability BI Coverage Code or Claim Coverage Code

Premium / Claim

Lessors' Contingent Liability Policy cannot have **Excess Liability Coverage**.

Edit Procedure

If **Type of Use** has the value shown in the table below, then the **Coverages** listed in the table must have the corresponding values.

Type of Use	Coverage	Values
92	Third Party Liability Coverage Code AND Third Party Liability BI Coverage Code	NOT = 69
	Claim Coverage Code	

B9014 – Entry Date vs. Policy Effective Date

Premium

Policies can be reported with **Policy Effective Date** 27 months in advance of **Entry Date** for advance renewals/new policies and multi-year policies.

Edit Procedure

Entry Date and **Policy Effective Date** must have the corresponding values shown in the table below.

Entry Date	Policy Effective Date (CCYYMMDD)
CCYYMM	≤ **Entry Date** plus 27 months

B9015 – Transaction Type vs. Entry date, Endorsement/Cancellation Date

Premium

Endorsements/Cancellations can be reported with **Endorsement/Cancellation Dates** 36 months in advance of **Entry Dates** for advance renewals/new policies and multi-year policies.

Edit Procedure

If **Transaction Type** has one of the values shown in the table below then **Entry Date** and **Endorsement/Cancellation Date** must have the corresponding values in the table.

Transaction Type	Entry Date	Endorsement/Cancellation Date (CCYYMMDD)
2, 4, J, K, L, M	CCYYMM	≤ **Entry Date** plus 36 months

B9016 – Policy Effective Date vs. Policy Expiry Date

Premium

Premium transactions can only be reported with a maximum 12 months calculated as the difference between **Policy Effective Date** and **Policy Expiry Date**.

Edit Procedure

Policy Effective Date and **Policy Expiry Date** must have the corresponding values shown in the table below.

Policy Effective Date	Policy Expiry Date
CCYYMMDD	≥ **Policy Effective Date** AND ≤ **Policy Effective Date** plus 12 months

B9017 – Transaction Type vs. Policy Effective Date, Policy Expiry Date, Endorsement/Cancellation Date

Premium

Endorsements/Cancellations can only be reported within the policy term.

Edit Procedure

If **Transaction Type** has one of the values shown in the table below, then **Policy Effective Date, Policy Expiry Date** and **Endorsement/Cancellation Date,** must have the corresponding values in the table.

Transaction Type	Policy Effective Date	Policy Expiry Date	Endorsement/Cancellation Date (CCYYMMDD)
2, 4, J, K, L, M	CCYYMMDD	CCYYMMDD	≥ **Policy Effective Date** AND ≤ **Policy Expiry Date**
1, 3			Blank OR = **Policy Effective Date**

B9018 – Entry Date vs. Policy Effective Date

Claim

Policy Effective Date cannot be greater than **Entry Date**, for a Claim transaction.

Edit Procedure

Entry Date and **Policy Effective Date** must have the corresponding values shown in the table below.

Entry Date	Policy Effective Date (CCYYMMDD)
CCYYMM	≤ **Entry Date**

B9019 – Policy Effective Date vs. Accident Date

Claim

Accident Date cannot be less than the **Policy Effective Date** and must not be greater than **Policy Effective Date** + 12 months (i.e. within policy term).

Edit Procedure

Policy Effective Date and **Accident Date** must have the corresponding values in the table below.

Policy Effective Date	Accident Date (CCYYMMDD)
CCYYMMDD	≥ **Policy Effective Date** AND ≤ **Policy Effective Date** plus 12 months

B9020 – Policy Effective Date, Endorsement/Cancellation Date vs. Vehicle Model Year

Premium / Claim

Vehicle Model Year can be reported 2 years in advance of **Policy Effective Year** or **Endorsement/Cancellation Year** for Premium transactions and 3 years for Claim transactions.

Edit Procedure

For Premium transactions: **Policy Effective Date, Endorsement/Cancellation Date** and **Vehicle Model Year** must have the corresponding values shown in the table below.

Policy Effective Date (Year)	Endorsement/ Cancellation Date	Vehicle Model Year (CCYY)
CCYYMMDD	Blank	≤ **Policy Effective Date** plus 2 years
	CCYYMMDD	≤ **Endorsement/Cancellation Date** plus 2 years

For Claim transactions: **Policy Effective Date (Year)** and **Vehicle Model Year** must have the corresponding values shown in the table below.

Policy Effective Date (Year)	Vehicle Model Year
CCYYMMDD	≤ **Policy Effective Date** plus 3 years

B9021 – Type of Business, Endorsement/Cancellation Date vs. Exposure

Premium

For individually rated: **Exposure** must equal the calculated difference in months between **Policy Effective Date** or **Endorsement/Cancellation Date** AND **Policy Expiry Date** +/-1.

For fleet: **Exposure** must be wholly divisible (i.e. no remainder) by the difference in months between the **Policy Effective Date** or **Endorsement/Cancellation Date** AND **Policy Expiry Date** +/-1.

For minor premium adjustments (Transaction Type 4 or M) Exposure must be zero.

Edit Procedure

For individually rated: If **Type of Business, Transaction Type** and **Endorsement/Cancellation Date** have the values shown in Table 1 below, then **Exposure** must have one of the corresponding values in the table.

For fleet rated: If **Type of Business, Transaction Type** and **Endorsement/Cancellation Date** have the values shown in Table 2, then **Exposure** must have one of the corresponding values in the table.

B9029 – Number of Years Claims Free vs. Number of Claims

Premium / Claim

If the Rated Operator has had no claims for the past 7 years, the **Number of Claims** must be 0.

Edit Procedure

If **Number of Years Claims Free** has the value shown in the table below, then **Number of Claims** must have the corresponding value in the table.

Number of Years Claims Free	Number of Claims
≥ 07	0

B9030 – Rated Operator Number of Years Licensed vs. Rated Operator Driver Training

Premium / Claim

If **Rated Operator Number of Years Licensed** ≤ 2**, Rated Operator Driver Training** must be 0 or 1. If **Rated Operator Number of Years Licensed** > 2, **Rated Operator Driver Training** must be 9**.**

Edit Procedure

If **Rated Operator Number of Years Licensed** has the value shown in the table below, then **Rated Operator Driver Training** must have one of the corresponding values in the table.

Rated Operator Number of Years Licensed	Rated Operator Driver Training
≤ 02	0, 1
> 02	9

B9031 – Number of Other Operators vs. Other Operators Number of Years Licensed

Premium / Claim

If there are no other Operators for the vehicle, **Number of Other Operators** must be 6 (i.e. none) and **Other Operators Number of Years Licensed** must be blank.

Edit Procedure

If **Number of Other Operators** has the value shown in the table below, then **Other Operators Number of Years Licensed** must have the corresponding value in the table.

Number of Other Operators	Other Operators Number of Years Licensed
6	Blank
<6	≥ 0

B9032 – Type of Use vs. Kind of Loss

Claim

Loss Transfer (i.e. **Kind of Loss** 07) cannot be reported with Motorcycles, ATV or Snow vehicles **Type of Use** codes.

Edit Procedure

If **Type of Use** has the value shown in the table below, then **Kind of Loss** must have the corresponding value in the table.

C9022 – First Party Vehicle Identification Number vs. First Party Vehicle Indicator

Claim

If **First Party Vehicle Identification Number** is reported as **N**ot **F**irst party, **First Party Vehicle Indicator** must be 000.

Edit Procedure

If **First Party Vehicle Identification Number** has the value shown in the table below, then **First Party Vehicle Indicator** must have the corresponding value in the table.

First Party Vehicle Identification Number (UIP)	First Party Vehicle Indicator (UIP)
NF	000

C9023 – Statistical Territory vs. Registrant Identification Number–RIN, Vehicle Identification Number–VIN, Type of Business and Type of Use

Premium

Only Garage policies and Non-owned policies can be reported with **RIN** = NOT APPLICABLE and **VIN** = NOT APPLICABLE.

Edit Procedure

If **Statistical Territory (Province)**, **Registrant Identification Number – RIN** and **Vehicle Identification Number – VIN** fields have the values shown in the table below, then **Type of Business**, **<Attached Trailer>**, **<Third Party Excess Liability Coverage>** and **Type of Use** must have the corresponding value in the table.

Statistical Territory (Province)	Registrant Identification Number–RIN (UIP)	Vehicle Identification Number–VIN (UIP)	Type of Business	<Attached Trailer>*	<Third Party Excess Liability Coverage>*	Type of Use

C9026 – Type of Use vs. Principal Operator Driver License Number Jurisdiction and Principal Operator Driver License Number

Premium

If **Type of Use** is not ATV, Mopeds, Snow vehicles, Unattached Trailer Homes or Truckmen operating outside Canada and the **Principal Operator Driver License Number Jurisdiction** is a valid Canadian jurisdiction, the **Principal Operator Driver License Number** must be valid according to the respective rules of the Jurisdiction of Issue.

Edit Procedure

If **Type of Use** and **Principal Operator Driver License Number Jurisdiction** have the values shown in the table below, then **Principal Operator Driver License Number** must have one of the corresponding values in the table.

Type of Use	Principal Operator Driver License Number Jurisdiction (UIP)	Principal Operator Driver License Number (UIP)
NOT = 26, 31, 50, 65 or 99	AB, BC, MB, NB, NF, NL, NN, NS, NT, NU, ON, PE, PQ, QC, SK, YK, YT, YU	Valid number according to the respective rules of the **Principal Operator Driver License Number Jurisdiction (UIP)**.

C9027 – Type of Use vs. First Party Accident driver License Number Jurisdiction and First Party Accident Driver License Number

Claim

If **Type of Use** is not ATV, Mopeds, Snow vehicles, Unattached Trailer Homes or Truckmen operating outside Canada and the **First Party Accident Driver License Number Jurisdiction** is a valid Canadian jurisdiction, the **First Party Accident Driver License Number** must be valid according to the respective rules of the Jurisdiction of Issue

Edit Procedure

If **Type of Use** and **First Party Accident Driver License Number Jurisdiction** have the values shown in the table below, then **First Party Accident Driver License Number** must have one of the corresponding values in the table.

Type of Use	First Party Accident Driver License Number Jurisdiction (UIP)	First Party Accident Driver License Number (UIP)
NOT = 26, 31, 50, 65 or 99	AB, BC, MB, NB, NF, NL, NN, NS, NT, NU, ON, PE, PQ, QC, SK, YK, YT, YU	Valid number according to the respective rules of the **First Party Accident Driver License Number Jurisdiction (UIP)**.

C9028 – Third Party Accident Driver License Number Jurisdiction vs. Third Party Accident Driver License Number

Claim

If **Third Party Accident Driver License Number Jurisdiction** is a valid Canadian jurisdiction, the **Third Party Accident Driver License Number** must be valid according to the respective rules of the Jurisdiction of Issue.

Edit Procedure

If **Third Party Accident Driver License Number Jurisdiction** has one of the values shown in the table below, then **Third Party Accident Driver License Number** must have one of the corresponding values in the table.

Third Party Accident Driver License Number Jurisdiction (UIP)	Third Party Accident Driver License Number (UIP)
AB, BC, MB, NB, NF, NL, NN, NS, NT, NU, ON, PE, PQ, QC, SK, YK, YT, YU	Valid number according to the respective rules of the **Third Party Accident Driver License Number Jurisdiction (UIP)**.

C9029 – Attached Trailer and Third Party Excess Liability Coverage vs. Vehicle Identification Number - VIN or First Party Vehicle Identification Number and Vehicle Code/Vehicle Model Year

Premium / Claim

VIN must be consistent with **Vehicle Code** and **Vehicle Model Year** except for attached trailers and Third Party Excess Liability coverage and “incomplete vehicles”.

Edit Procedure

If **<Attached Trailer>**, **<Third Party Excess Liability Coverage>** and **Vehicle Identification Number – VIN** for premium transactions or **First Party Vehicle Identification Number** for claim transactions have the values shown in the table below, then **Vehicle Code** and **Vehicle Model Year** must have the corresponding value in the table.

<Attached Trailer>*	<Third Party Excess Liability Coverage>*	Vehicle Identification Number–VIN (UIP) First Party Vehicle Identification Number (UIP)	Vehicle Code/Vehicle Model Year
No	No	Valid VIN	Vehicle Code/Vehicle Model Year matches corresponding VIN in VINlink database

Note: * Refer to Appendix A – Edit tags for determination of <**Attached Trailer>** and <**Third Party Excess Liability Coverage>.**

Note: This error code is assigned as follows:

- C9029 for:
  - Ontario Private Passenger vehicles with Policy Effective Date ≥ 20020301, and for Private Passenger vehicles in other jurisdictions with Policy Effective Date ≥ 20090101.
  - Motorcycles, ATVs and Snow vehicles in all jurisdictions with Policy Effective Date ≥ 20100101
- C9029x for:
  - Ontario Private Passenger vehicles with Policy Effective Date < 20020301,
  - Private passenger vehicles for other jurisdictions than Ontario with Policy Effective Date < 20090101
  - Motorcycles, ATV and Snowmobile Vehicles in all jurisdictions with Policy Effective Dates < 20100101.

C9030 – Attached Trailer and Third Party Excess Liability Coverage vs. Vehicle Identification Number-VIN or First Party Vehicle Identification Number

Premium / Claim

VIN must be found in the VINlink database except for attached trailers and Third Party Excess Liability coverage.

Edit Procedure

If **<Attached Trailer>** and **<Third Party Excess Liability Coverage>** have the values shown in the table below, then **Vehicle Identification Number – VIN** for premium transactions or **First Party Vehicle Identification Number** for claim transactions must have the corresponding value in the table.

<Attached Trailer>*	<Third Party Excess Liability Coverage>*	Vehicle Identification Number–VIN (UIP) First Party Vehicle Identification Number (UIP)
No	No	Valid VIN matches corresponding entry in VINLink Database

Note: * Refer to Appendix A – Edit tags for determination of <**Attached Trailer>** and <**Third Party Excess Liability Coverage>.**

Note: Error code is assigned as follows:

- C9030 for:
  - Ontario Private Passenger vehicles with Policy Effective Date ≥ 20020301 and for Private Passenger Vehicles in other jurisdictions with Policy Effective Date ≥ 20090101.
  - Motorcycles, ATVs and Snow vehicles in all jurisdictions with Policy Effective Date ≥ 20100101
- C9030x for:
  - Ontario Private Passenger vehicles with Policy Effective Date < 20020301,
  - Private Passenger Vehicles for other Jurisdictions than Ontario with Policy Effective Date < 20090101
  - Motorcycles, ATV and Snowmobile Vehicles in all jurisdictions with Policy Effective dates < 20100101.

C9031 – Type of Business vs. Vehicle Identification Number–VIN, Exposure and Vehicle Indicator

Premium

For Fleet Rated policies reported with **VIN, Exposure** must be ≤ 12 and **Vehicle Indicator** must be 001 – 899.

Edit Procedure

If **Type of Business** and **Vehicle Identification Number – VIN** and **<Attached Trailer>** have the values shown in the table below, then **Exposure** and **Vehicle Indicator** must have the corresponding values in the table.

Type of Business	Vehicle Identification Number – VIN (UIP)	<Attached Trailer>*	Exposure	Vehicle Indicator (UIP)
4, 5	NOT = NOT APPLICABLE	No	≤ 12	001 – 899
		Yes		000

Note: Refer to Appendix A – Edit tags for determination of **<Attached Trailer>**.

C9032 – Third Party Liability Coverage Code or Third Party Liability BI Coverage Code vs. Vehicle Identification Number–VIN

Premium

Transactions reported with **Third Party Excess Liability Coverage** do not require **Vehicle Identification Number – VIN**.

Edit Procedure

If **Third Party Liability Coverage Code** or **Third Party Liability BI Coverage Code** has the value shown in the table below, then **Vehicle Identification Number – VIN** must have the corresponding value in the table.

Third Party Liability Coverage Code or Third Party Liability BI Coverage Code	Vehicle Identification Number – VIN (UIP)
69	NOT APPLICABLE

Note: Refer to Appendix A – Edit tags for determination of **<Attached Trailer>**.

C9033 – UIP Transaction Type vs. Claim Coverage Code

Claim

For **UIP Transaction Type** reflecting either a **Recovery or Salvage,** the **Claim Coverage Code** must be a physical damage coverage or and Uninsured Coverage or Third Party Liability reported with the appropriate kind of losses.

Edit Procedure

If **UIP Transaction Type** has the values shown in the table below, then **Claim Coverage Code** must have the corresponding value in the table.

C9034 – Policyholder Postal Code vs. Policyholder Street Address and Policyholder Province

Premium

Policyholder Postal Code X0X 0X0 can only be reported with **Policyholder Province** codes: OT, AU or US, when **Policyholder Mailing Address** is reported in a structured format.

Edit Procedure

If **Policyholder Postal Code** and **Policyholder Street Address** have the values shown in the table below, then **Policyholder Province** must have one of the corresponding values in the table.

Policyholder Postal Code (UIP)	Policyholder Street Address (UIP)	Policyholder Province (UIP)
X0X0X0	NOT = ## (positions 1 & 2)	OT, AU, US

If **Policyholder Province** and **Policyholder Street Address** have the values shown in the table below, then **Policyholder Postal Code** must have one of the corresponding values in the table.

Policyholder Province (UIP)	Policyholder Street Address (UIP)	Policyholder Postal Code (UIP)
OT, AU, US	NOT = ## (positions 1 & 2)	X0X0X0

C9035 – Policy Effective Date or Accident Date vs. UIP Data

Premium / Claim

UIP Data is not required on **Policy Effective Date/Accident Date** prior to July 01, 1996.

Edit Procedure

If **Policy Effective Date** has one of the values shown in the table below, then **UIP Data** must have one of the corresponding values in the table.

Policy Effective Date	UIP Data
< 19960701	UIP data is not required

If **Accident Date** has one of the values shown in the table below, then **UIP Data** must have one of the corresponding values in the table.

Accident Date	UIP Data
< 19960701	UIP data is not required

C9036 – Policy Effective Date or Accident Date vs. UIP Data

Premium / Claim

UIP Data is required on **Policy Effective Date/Accident Date** after July 01, 1996.

Edit Procedure

If **Policy Effective Date** has one of the values shown in the table below, then **UIP Data** must have one of the corresponding values in the table.

Policy Effective Date	UIP Data
≥ 19960701	UIP data is required

If **Accident Date** has one of the values shown in the table below, then **UIP Data** must have one of the corresponding values in the table.

Accident Date	UIP Data
≥ 19960701	UIP data is required

C9037 – Registrant Identification Number vs. Vehicle Identification Number

Premium

Registrant Identification Number must be reported if **Vehicle Identification Number** is reported as NOT APPLICABLE for fleets, except for attached trailers and Third Party Excess Liability Coverage.

Edit Procedure

If **Statistical Territory (Province), Type of Business**, **Policy Effective Date** and **Registrant Identification Number** have the values shown in the table below, then **Vehicle Identification Number** must have the corresponding value in the table.

Statistical Territory (Province)	Type of Business	Policy Effective Date	Registrant Identification Number	Vehicle Identification Number
ON	4	≥ 20011001	Blank	NOT = NOT APPLICABLE
NB, NL, NS, PE		≥ 20100701		

If **Statistical Territory (Province)**, **Type of Business** and **Vehicle Identification Number** and **Policy Effective Date** have the values shown in the table below, then **Registrant Identification Number**, **<Attached Trailer>** and **<Third Party Excess Liability Coverage>** must have the corresponding value in the table.

Statistical Territory (Province)	Type of Business	Vehicle Identification Number	Policy Effective Date	Registrant Identification Number	<Attached Trailer>*	<Third Party Excess Liability Coverage>*

APPENDIX A EDIT TAGS

Determination of Attached Trailer

Attached trailer is identified as driving record 7 on transactions with Policy Effective Date < 20080101 and use of Trailer Indicator on transactions with Policy Effective Dates ≥ 20080101.

Edit Procedure

If **Policy Effective Date, Trailer Indicator and, Driving Record fields** have the value shown in the table below, then **Attached Trailer** has the value shown in the table

Policy Effective Date	Trailer Indicator	Driving Records*	Attached Trailer
< 20080101		7	Yes
		NOT = 7	No
≥ 20080101	Y		Yes
	N		No
	Blank		No

Driving Records:

- Accident Benefits Driving Record
- Collision/All Perils Driving Record
- Third Party Liability Driving Record
- Claim Driving Record

Determination of Third Party Excess Liability Coverage

Third Party Excess Liability Coverage is identified as coverage code 69 reported as a Third Party Liability Coverage code.

Edit Procedure

If **Third Party Liability Coverage,** or **Third Party Liability BI Coverage** or **Claim Coverage** has the value shown in the table below, then **Third Party Excess Liability Coverage** has the value shown in the table.

Third Party Liability Coverage	Third Party Liability BI Coverage	Claim Coverage	Third Party Excess Liability Coverage
69	69	69	Yes
NOT = 69	NOT = 69	NOT = 69	No
