CHAPTER 1 INTRODUCTION

General

A number of Insurance regulatory authorities across Canada have the authority under their respective insurance legislation to collect experience from all licensed insurers in a form approved by the regulatory authority. The Automobile Statistical Plan (“the Plan”) Manual sets out the statistical data reporting requirements of each participating jurisdiction. Requirements which are unique to a particular jurisdiction are noted in the Field Codes section.

Insurance legislation also allows the regulatory authorities to appoint a statistical agency to collect the experience of the licensed insurers.

The General Insurance Statistical Agency (“GISA”) was established to carry out the activities of a statistical agent on behalf of Alberta, New Brunswick, Newfoundland & Labrador, Nova Scotia, Ontario, Prince Edward Island, Yukon, Nunavut and the Northwest Territories. GISA is a federally incorporated, not-for-profit corporation governed by a Board of Directors, with representation from the nine participating insurance regulatory authorities, the property and casualty insurance industry and the public.

On April 1, 2006, GISA was appointed as a statistical agent by the participating insurance regulatory authorities to provide governance, accountability and oversight of the mandated statistical plans.

As the statistical agent, GISA:

- promotes the timeliness of statistical data collection, analysis and reporting mechanisms;
- acts on behalf of the participating insurance regulators to coordinate and harmonize the statistical data filing requirements for insurers regarding the experience of their business in such jurisdictions; and
- promotes the quality and value of statistical data generated by licensed insurers.

Concurrent with its appointment as a statistical agent, GISA entered into a service agreement with IBM to provide statistical plan services under specified terms and conditions and to receive the information prescribed by the Plan, from insurers.

Further information regarding GISA is available through its website at www.gisa.ca.

All correspondence and matters pertaining to the Plan should be directed to info@gisassp.com.

Scope

The Plan was first introduced on January 1, 1937, and currently is effective in all Provinces/Territories except British Columbia, Manitoba, Saskatchewan and Quebec.

Underwriting Information Plan

The Automobile Statistical Plan manual includes the additional Underwriting Information Plan (hereinafter referred to as “UIP”) requirements mandated through Facility Association’s Plan of Operation. The applicable

instructions can be found in *Facility Association Plan of Operation – Article V Participation ratios and sharing par. 2. (b)*:

“In order to facilitate proper identification of eligible risks and proper rating of risks each member is required to participate in any underwriting information plan operated on behalf of the automobile insurance industry by the GISA SSP or other contracted entity in any jurisdiction in which such member operates and to report to the GISA SSP or such other contracted entity all information as required by such system.”

Jurisdiction of the Plan

The Plan applies without exception to all insurers licensed to transact automobile insurance in the following jurisdictions: Alberta, New Brunswick, Newfoundland and Labrador, Nova Scotia, Ontario, Prince Edward Island, Yukon, Nunavut and the Northwest Territories. The Plan also includes the special requirements of Facility Association for their servicing carriers, where applicable.

Statistical Agency

The General Insurance Statistical Agency (GISA) was appointed by the participating insurance regulatory authorities as statistical agent on April 1, 2006.

Statistical Agency Service Provider

GISA has entered into a service agreement with IBM (the “Service Provider”) under which the latter provides statistical plan services under specified terms and conditions including data collection, quality assurance, compilation and reporting services. The agreement includes certain schedules for reporting to GISA regarding data collection issues and specific data quality issues as well as compilation of industry statistical exhibits. (Refer to “Data Quality” on page 25.)

Role and Responsibilities of Insurers

Insurers are required to report to the designated Service Provider in accordance with the requirements set out in the Automobile Statistical Plan Manual. Insurers are directed to the Data Quality section of this manual, which identifies the importance of quality data and procedures employed by the Service Provider related to data quality. Insurers are expected to co-operate with the Service Provider to resolve any data quality issues in a timely fashion.

Need for Statistical Data

Statistical data captured through the Plan is used by both industry and government. Statistical data, which is captured on an accident year basis, matches premiums and claims costs based on the year that the accident occurred, to provide a more accurate picture of experience to estimate future costs and is used in the process of determining rates. As certain types of claims, such as claims for third party liability or accident benefits take a long time to settle, insurers must revise estimates of claims liabilities on a regular basis. Claims costs in any financial period reflect claims payments made and adjustments to claims liabilities in the financial period, for accidents that occurred in the current and prior years. Financial data does not provide the proper basis for estimating costs for determining rates.

As statistical data is available at a fine level of detail there can be greater understanding of the automobile insurance product. For example, information on both the average cost of claims and the number of claims is available from the Plan, as well as information based on the use of vehicle (e.g., private passenger or commercial) or by classification elements. Also, by having data available at an industry-wide level, there is a broader statistical basis on which to make estimations of costs.

Reporting Basis for Annual Statistical Reports

The Service Provider prepares annual statistical exhibits on behalf of GISA using the statistical data reported on an **Accident Year basis**, which matches premiums earned during a 12-month period with claims incurred resulting from accidents that occurred during that same period.

Reporting Requirements for Inactive Companies

Companies which have stopped writing business voluntarily or have been ordered by a court to be wound-up, in any of the participating jurisdictions (refer to "Jurisdiction of the Plan" on page 22) must continue to report subsequent business activities such as payment of claims and refund of unearned premiums.

Any dispensation from reporting requirements must be obtained from the Regulatory Authority in the applicable jurisdiction(s), who will notify GISA of such decisions.

Reporting Requirements for “Fronting” Companies

Where a company is fronting for another entity, which will usually not be a licensed insurer, the fronting insurer is responsible for statistical reporting to GISA in accordance with this Plan.

Reporting Requirements Regarding “Self-insured” Side Agreements

Where an insurer provides a standard automobile policy to an entity that, in turn, self-insures part of the coverage by side-agreement with the insurer, the insurer is responsible for statistical reporting to GISA in accordance with this Plan.

Premiums collected in respect to such policy should be reported under this Plan, and all claims payable by the insurer, i.e., exceeding the self-insured retention (SIR) layer, must be reported under this Plan.

Reporting Requirements Involving Portfolio Transfers of Business

Portfolio transfers involve companies who have sold their business to another company. Both companies must co-ordinate matters to ensure a smooth transition in statistical plan reporting to the Service Provider.

CHAPTER 2 DATA QUALITY

Data Quality for Insurers and Service Provider

Insurers are required to report data in accordance with the Plan. Intentionally inaccurate coding is prohibited and data reported to the Service Provider must reflect accurate information related to a policy or claim transaction.

The Service Provider is also required to undertake a variety of validity and reasonability checks and follow up with insurers where issues are identified to ensure the quality of data. Insurers are also required to respond in a timely manner to queries raised by the Service Provider about issues related to such data.

Edit Exceptions

Insurers are responsible for examining edit exceptions identified by the Service Provider. Where it determines that the cause of an edit exception is erroneous information, the insurer must correct the erroneous data in a timely manner using error correcting processes as established by the Service Provider.

If the edit exception reveals a condition that could produce systematic errors, the insurer must correct this condition in a timely fashion and correct all erroneously reported data using the error correcting process established by the Service Provider.

Validity and Consistency Checks

Validity checks are required to detect invalid coding, i.e., codes that are not valid for a certain data element as well as codes that are not valid (consistent) when used in conjunction with another data element code.

Insurers are required to correct invalid codes as identified by the Service Provider.

Reasonability Checking

Reasonability checks are generally more difficult to apply and understand, because a significant amount of knowledge of the underlying business conditions is required. Reasonability checks do not ascertain with certainty that a given set of data contains errors. Reasonability checks do indicate potential problems and show whether the respective insurance company needs to do further research and analysis. For this reason, it is important that the Service Provider considers the time and expense required by insurers to investigate and verify or correct the reported data.

By Service Provider

The Service Provider conducts reasonability checks that include the comparison of both aggregate and company experience for location, class and major coverage data elements for the current period to profiles from prior periods. In addition, the Service Provider compares average premiums, premium distributions, loss ratios, claims frequencies and loss development for major data elements to expected profiles for both individual companies and in aggregate.

Results that indicate a significantly higher than average chance that a set of data may contain errors will be reported to insurers with an explanation of the unusual finding and its possible significance. When the possible or probable errors appear to be of a significant nature, the Service Provider will indicate to the insurer that the situation is critical. A critical situation involves an uncorrected or unconfirmed error, or errors, that cause the Service Provider to question whether the data should be used in reports to regulatory authorities.

The Service Provider shall have reasonable flexibility in implementing error correction processes, which rely on their experience with data collection and knowledge of underlying business scenarios.

Insurer Responsiveness to Reasonability/Accuracy Issues

Insurers shall acknowledge and respond to all inquiries regarding reasonability issues identified by the Service Provider. This includes immediate and specific responses to issues raised as critical. Unresolved issues may trigger regulatory action.

If data are identified as erroneous, corrections shall be made and provided to the Service Provider. Errors that are identified as critical issues may result in correction of historical data. For this purpose, insurers must maintain past data for at least five years, unless specific laws provide for a shorter retention period.

Accurate coding of the policy and claim identification fields are required so that companies can investigate data quality problems and the Service Provider can link all activity for the same claim together for compilation of size of loss exhibits.

Report(s) to the Statistical Agency (GISA)

The Service Provider shall provide GISA with reports concerning data quality issues. These reports may identify insurers whose data was excluded from exhibits for any reason, including: that it fell outside the tolerance for missing or invalid data; or that the insurer was unable to reconcile its statistical and financial data with acceptable tolerances.

These reports are made available to GISA on a regular basis, to facilitate discussion and resolution of issues in a timely manner.

CHAPTER 3 GENERAL INSTRUCTIONS

Record Formats

There are two types of record formats used to report automobile experience to GISA.

The Premium record format is used for reporting information related to the policy and includes the following business subject segments:

Submission Control

Information required for the control of the submission, including:

- Company Identification
- Entry Date
- Statistical Plan
- Etc.

Policy

Identification of the policy, including:

- Policy Identification
- Policy Effective Date
- Policy Expiry Date
- Etc.

Policyholder

Information related to the policyholder, such as:

- Policyholder Name
- Policyholder Address
- Etc.

Vehicle

Details of the vehicle at risk, including:

- Vehicle Code
- Vehicle Location
- Type of Business
- Etc.

Coverage

Information related to the coverage(s), and premium charged/refunded, such as:

- Third Party Liability Coverage
- Third Party Liability Limit Amount
- Third Party Liability Premium
- Etc.

The Claim record format is used for reporting all claims and claims details including several of the subject segments identified in the premium record, such as:

- Submission Control
- Policy
- Policyholder
- Vehicle
- Operator

Some additional business subject segments are reported in the claims record. These are:

Claim Detail

This segment includes information related to the specific claim, including:

- Claim Identification
- Claim Coverage
- Paid Amount
- Etc.

Claim Participant

This segment is used to identify parties involved in the claim, including:

- First Party Accident Driver Name
- Third Party Accident Driver Name
- Etc.

Vehicle Rate Group Reporting

As of January 1st, 2014 these data elements are mandatory to be reported in all jurisdictions.

Revisions to the Plan

The Plan is applicable to all premium and claim transactions for policies with effective dates on or after the date indicated for each required data element.

All transactions (i.e., premiums and claims) must be submitted in accordance with the codes effective at the time of policy inception unless specifically stated otherwise.

Reinsurance

The statistics required by this Plan are for direct business only. No transactions relating to ceding or assuming of business are to be reported.

Facility Association Residual Market and Risk Sharing Pool

Premiums and claims for all direct written policies, regardless of whether or not they may be subject to cessions to Facility or Facility Risk Sharing Pools, are to be reported on a 100% basis under this Plan, without any reduction for amounts so ceded. Premiums and claims assumed from these mechanisms based on the member's share are not to be reported at all under this Plan.

Data separately reported to the Facility Association Alberta Risk Sharing Pool, as described in the current Alberta Risk Sharing Pool Procedures Manual, will be copied and appended to the automobile statistical plan database.

In order to reduce reporting complexities for insurers and improve the aggregate value of reported data, field values for data elements common to the required reporting of both ASP and Risk Sharing Pools should be reported in both cases using the standardized ASP field values, unless special requirements dictate otherwise.

Facility Association

Facility Association Servicing Carrier insurers are required to report premiums and claims on all policies written on behalf of the Facility Association as direct business under this Plan.

Premiums and claims assumed from this mechanism based on the member's share are considered reinsurance for the purposes of the Plan and therefore such transactions are not to be reported at all.

Premiums

The premiums to be reported are those charged by the insurer on all direct written risks, including those written on a reporting form or on an audit transaction basis. The premium and term (in months) are to be reported for each combination of coverages in accordance with the coverage codes contained in the appropriate section of the Plan.

Individual transaction reporting of premium and exposure by coverage will continue to be accepted. However, single vehicle premium transactions are preferred.

The Premium record format contains space to enter data resulting from all policy coverages, exposures and premiums attached to one vehicle. Companies are encouraged to report on this basis in order to reduce the volume of records processed through the edit by the Service Provider and to improve the quality of the edit, and hence, the data.

Cancellations and Endorsements

Cancellations

Report the pro-rata portion of the exposure for the unexpired term of the policy and the actual return premium (whether on a short rate or pro-rata basis).

Endorsements

Report all endorsements in full detail on a debit/credit basis. When the endorsements provide coverage for which specific codes are not provided under the Plan, such as "loss of use," or "deletion of glass," report the premium under the controlling coverage and do not report the exposure unless the premium change includes a change in the controlling coverage premium.

Discounts and Additional Premiums

All premium discounts and surcharges, whether due to preferred classifications, experience rating or any other condition, shall be deducted from or added to each coverage or combination of coverages separately, and the premium reported shall be the net premium received by the company from the insured.

If premium discounts and surcharges are reported on a separate premium transaction, the exposure must be reported as zeroes.

Fleets

Fleets are groups of at least five vehicles that are under common ownership or management and that are used for business, commercial or public purposes.

Fleets that are NOT on a per car exposure basis are to be coded with zeroes in the Exposure field.

Exposure of fleets or synthetic fleets that are rated on a per car exposure basis may be reported in aggregate, i.e., it is permissible to combine several automobiles insured under the same policy PROVIDED all vehicles so combined have identical territorial, classification and coverage codes. On such records, the Exposure must equal the number of months in the policy period multiplied by the number of vehicles being combined on the record. For example, ten vehicles insured for one year would be shown as "000120," fifteen vehicles "000180," etc. The same reasoning applies to cancellations so that whenever a record is coded to represent more than one vehicle, the unexpired Term in Months on the cancellation records should be shown by a figure representing the unexpired term in months times the number of vehicles cancelled.

Where an estimated or deposit premium is initially reported for fleets on a per car exposure basis, report the best possible estimate for the Term in Months. As the estimated premium is adjusted during the policy period, the term must be adjusted as well. All adjustments are to be reported on a debit/credit basis.

Deductibles

Deductibles are used for physical damage coverages (including DCPD) and are reported as the actual dollar values used in rating the risk. Distinctions are made between **Standard** and **Non-Standard** deductibles; this distinction is related to the type of the deductible and NOT to the amount of the deductible.

A **Standard deductible** is one with a fixed dollar value which is the same whether one is rating the risk or adjusting a claim. Waiving of the deductible in certain claim situations does not make an otherwise Standard deductible into a Non-Standard deductible.

Whether or not a deductible is Standard is NOT related to the amount of the deductible, e.g. both a fixed dollar \$500 deductible and a fixed dollar \$650 would be considered Standard deductibles. A deductible calculated as a percentage of the price of the vehicle is a Standard deductible but must be expressed as a dollar amount for reporting.

A **Non-standard deductible** is any other one – i.e. any deductible which cannot be expressed as a fixed dollar amount which is the same whether one is rating the risk or adjusting a claim; examples of such deductibles include disappearing deductibles which vary with the size of the claim and discounted deductibles, where the actual claims deductible would vary according to the claimant's driving experience.

Vehicle Reporting

Risks rated on a per car exposure basis (other than fleets) shall be reported one vehicle per record with the appropriate Vehicle Code and Vehicle Model Year.

Fleets do not require a Vehicle Code.

Claim Definition

For purposes of this Plan, a claim is defined as all payments and reserve entries, under each Kind of Loss code, within the appropriate coverage assigned to an accident for a given insurance contract.

Losses

Claims reported under the Automobile Statistical Plan are at the Coverage/Kind of Loss level.

Where more than one coverage is affected by one accident or where more than one cause (kind) of loss is affected, the original (first) loss payment under each coverage and each cause (kind) of loss involved shall be considered as an original payment and be coded accordingly. If there is more than one claimant under a coverage and cause (kind) of loss, the first payment made to anyone of the claimants shall be considered the original loss payment and other payments to other claimants as subsequent. All such payments are to be reported under the same Claim Identification.

Allocated Claim Expenses

Allocated loss adjustment expense payments may be reported separately from the loss payment, but it is preferable to report both on the same record. Separate fields are provided for loss amounts and allocated loss adjustment expense payments and the amount(s) shall be entered in the appropriate field(s).

The following is a list of types of expenses that should be reported as “allocated (external) expenses” to be used when reporting under the Statistical Plan, whether a loss payment is made or not:

- Adjusters' accounts including all disbursements – not including staff adjusters.
- Appraisal costs including appraisal centre costs – not including staff appraisal costs.

- Legal expenses including all first party legal costs charged to a particular claim file – not including staff legal fees.
- All other external claims expenses.

Outstanding Reserves

Estimates of outstanding claims should include the estimated allocated claim expense. The outstanding reserves and allocated claim expense should be reported and coded in separate fields in accordance with the instructions given in this manual.

Reporting Media

The statistical data reported under the Plan must be filed electronically using the communication method specified by the Service Provider.

For more information, please refer to the Data Submission Requirements Manual or contact the Data Quality Analyst assigned to you by the Service Provider.

Submission Due Dates

Completed data shall be sent to the Service Provider monthly (or daily, where required).

Monthly submissions shall include the transactions (writings, cancellations, losses and salvage) reportable under this Plan and must be received by the Service Provider **within 15 days** after the end of the month in which the transaction was entered into the company's records.

Outstanding claims shall be reported to the Service Provider **quarterly – at the end of March, June, September and December** – and must be received by the Service Provider **within 15 days** after the end of each reporting period.

Facility Association servicing carriers are required to report outstanding claims **monthly** to the Service Provider, who should receive reports **within 15 days** after the end of the month in which the transaction was entered in the company's records.

Reconciliation

Monthly

All insurers are required to confirm their submissions on a monthly basis, within 15 days after the end of each month. The totals in the data submitted must agree and balance with the insurer's books. The Service Provider has provided a web application for insurers to facilitate this monthly reconciliation. For more information, please contact the Data Quality Analyst assigned to you by the Service Provider.

Annual Balance Reconciliation Return

The purpose of the Annual Balance Reconciliation (ABR) Return is to verify that the Service Provider has received all data that is subject to statistical reporting. Companies are required to derive the expected amount

of direct written premiums, direct claims paid and individual case outstanding losses on direct business to be reported to the Service Provider by disclosing adjustments that need to be made to the corresponding amounts on the financial statements. The Service Provider compares these expected amounts to the actual amounts submitted by each company on the statistical plan transactions. Discrepancies are communicated to the insurance companies involved.

Error Transactions

The Service Provider provides reporting companies with a web application to facilitate electronic error corrections. Insurers are required to correct their statistical data errors or resubmit transactions within the timelines specified by the Service Provider.

Deficiency Fees

Processing delays, frequently caused by late and inaccurate submissions, can compromise the timeliness and value of information available to the statistical agency. The statistical agency has authorized the Service Provider to levy deficiency fees against insurers who do not meet certain quality standards. Deficiency fees are designed to act as an incentive to improve the quality of submitted data.

Please refer to the Deficiency Fee Manual for further details or contact the Data Quality Analyst assigned to you by the Service Provider.

Contact Information

For assistance with data reporting, the various data quality tools or the process employed, please contact the Data Quality Analyst assigned to you by the Service Provider.

CHAPTER 4 FIELD DEFINITIONS

This section provides definitions of the field requirements for the Automobile Statistical Plan and includes instructions regarding any special requirements of the Facility Association for their servicing carriers.

The special requirements of the Underwriting Information Plan (UIP) are also included in the Plan in order to create one comprehensive manual for insurers. These requirements are explicitly indicated as UIP requirements and are NOT mandated by GISA.

The record formats are outlined in the Data Submission Requirements Manual available from the Service Provider. The following field definitions are arranged in the same order as the record formats, without reference to specific locations within the records.

This section includes definitions of each field and each definition also provides a link to the appropriate table in the Field Codes section, which gives specific codes and values. The definition of each field is also labelled "Premiums" or "Claims," to indicate whether the field is required for premium submission, claims submission or both.

Submission Control

The following fields are included for submission control purposes. They are used by the Service Provider to control the efficient processing of submission batches from each insurer.

Record Format Version Number

*Premiums
Claims*

This field is used to identify the particular record format being used.

Company Identification

*Premiums
Claims*

A unique identifier assigned by the Service Provider to each reporting insurer to be used in all reporting under the Automobile Statistical Plan.

Entry Date

*Premiums
Claims*

This field identifies the reporting period related to when the specific transaction was entered in the insurer's accounting records.

Statistical Plan

*Premiums
Claims*

This field contains a code identifying the specific statistical plan.

Transaction Type

*Premiums
Claims*

This field identifies the specific type of transaction and is also used to determine the financial values of the corresponding premium fields (i.e., debit or credit).

UIP Transaction Type (UIP)

*Premiums
Claims*

This field is used to identify the specific type of UIP data included in the transaction.

Processing Date (UIP)

*Premiums
Claims*

This field contains the date the transaction was processed within the insurer's system and allows for appropriate sequencing of business transactions by the Service Provider.

Sequence Number (UIP)

*Premiums
Claims*

This field is used to identify the specific sequencing of transactions when there are multiple business transactions with the same Processing Date.

Policy

This segment includes the identification of the policy contract including policy number, policy dates and other policy level details.

Policy Control Id

*Premiums
Claims*

This field is used by insurers to aid error handling and may contain a branch code or any other code that the insurer may find useful when handling error transactions.

Policy Identification Digit

*Premiums
Claims*

This field is used by insurers to facilitate error handling. It may be used in addition to Policy Control ID and contains a unique code that the insurer may find useful when handling error transactions.

Policy Identification

*Premiums
Claims*

This field contains the policy number, i.e., a unique number that the company has assigned to identify the specific policy. The policy number **MUST** identify the specific policy and is used by the Service Provider and the Facility Association for the matching of claims transactions with their appropriate premium transactions.

Note: To enable matching of claims to premiums, the same policy number **MUST** be reported on claims transactions.

Policy Effective Date

*Premiums
Claims*

This is the date on which the policy becomes effective.

For policies written with a term of more than 12 months, multiple transactions must be reported for each 12-month (or shorter) term.

Any cancellations/endorsements or losses on the policy must be reported with the appropriate Policy Effective Date (e.g., if a claim occurs during the second 12-month term, the Policy Effective Date for the second 12-month term must be reported in the claim transaction).

Endorsement/Cancellation Date*Premiums*

For endorsements reported in detail, enter the effective date of the endorsement. In the case of cancellations, enter the date on which the cancellation is effective.

This date coincides with the Policy Effective Date on endorsements effective on the Policy Effective Date and on flat cancellations.

Policy Expiry Date*Premiums*

Enter the date the policy expires.

No Frills Indicator*Premiums
Claims*

Report an indicator denoting whether the vehicle is insured under a “No-Frills” policy.

Rejecting Company Identification (FA)*Premiums*

Report the [Company Identification](#) of the insurer that refused coverage thereby qualifying the applicant for Facility Association coverage.

Group Marketing Indicator*Premiums
Claims*

Report an indicator denoting whether the information being reported is for a policy receiving a group discount or is subject to group rates.

Policyholder (UIP)

The fields contained within this segment are required for UIP and contain information that identifies the policyholder.

Policyholder Name (UIP)

*Premiums
Claims*

The Policyholder Name may be reported in either a structured or unstructured format. When using the structured format, enter the appropriate information into the following fields: [Policyholder Surname \(UIP\)](#), [Policyholder First Name \(UIP\)](#), and [Policyholder Middle Name/Initial \(UIP\)](#).

When reporting the Policyholder Name in an unstructured format, the full name is entered in this field.

Note:

- If the policy names both a leasing company and a lessee, report the lessee as the policyholder.
- If the policy is in the names of two or more individuals, one individual is to be selected and reported as the policyholder.

Policyholder Surname (UIP)

*Premiums
Claims*

If the Policyholder Name is reported in a structured format, enter the surname of the policyholder (named insured) in this field.

Policyholder First Name (UIP)

*Premiums
Claims*

If the Policyholder Name is reported in a structured format, enter the first name of the policyholder (named insured) in this field.

Policyholder Middle Name/Initial (UIP)

*Premiums
Claims*

If the Policyholder Name is reported in a structured format, enter the middle name/initial of the policyholder (named insured) in this field.

Policyholder Mailing Address (UIP)

Premiums

The Policyholder Mailing Address may be reported in either a structured or unstructured format. When following the structured format, enter the appropriate information into the following fields: [Policyholder Mailing Address \(UIP\)](#), [Policyholder City \(UIP\)](#) and [Policyholder Province \(UIP\)](#).

When reporting the Policyholder Mailing Address in an unstructured format, the entire mailing address is entered in this field.

Policyholder Street Address (UIP)

Premiums

If the Policyholder Mailing Address is reported in a structured format, enter the number, the street name and, if applicable, the unit number of the policyholder's mailing address separated by blanks or commas.

Policyholder City (UIP)

Premiums

If the Policyholder Mailing Address is reported in a structured format, enter the name of the city of the policyholder's mailing address.

Policyholder Province (UIP)

Premiums

If the Policyholder Mailing Address is reported in a structured format, enter the standard Canada Post two-character code representing the province of the policyholder's mailing address.

Policyholder Postal Code (UIP)

Premiums

Enter the postal code of the policyholder's mailing address.

Vehicle

Fields within this segment are used to identify the vehicle, its use, location and classification for rating purposes.

Commuting Distance One-Way

*Premiums
Claims*

For individually rated private passenger vehicles report the actual value for one-way commuting distance in kilometers.

Annual Driving Distance

*Premiums
Claims*

For individually rated private passenger vehicles report the actual value for annual driving distance in kilometers.

Business Use Percentage

*Premiums
Claims*

For individually rated private passenger vehicles report the actual value for business use percentage.

Vehicle Code

*Premiums
Claims*

Report the applicable Vehicle Code associated with the vehicle, motorcycle, all-terrain vehicle or snow vehicle.

Vehicle Model Year

*Premiums
Claims*

Enter the model year of the insured private passenger use vehicle, motorcycle, all-terrain vehicle or snow vehicle.

Statistical Territory

*Premiums
Claims*

Report the Statistical Territory corresponding to the location in which the vehicle is usually garaged or primarily used. If the vehicle is garaged or primarily used in a province that is different from the jurisdiction of the policy, report the statistical territory that is used to determine the premium.

Vehicle Location Postal Code*Premiums
Claims*

Report the first three characters of the postal code (i.e., the FSA code) corresponding to the location in which the vehicle is usually garaged or primarily used. If the vehicle is garaged or primarily used in a province that is different from the jurisdiction of the policy, report the FSA within the statistical territory that is used to determine the premium.

Type of Business*Premiums
Claims*

Report a code denoting the type of business associated with the risk.

Type of Use*Premiums
Claims*

Report a code denoting the vehicle class and type of use of the insured vehicle.

Coding of private passenger occasional operator claims:

If the accident driver is an occasional operator and the claim is assigned to a vehicle for which an explicit additional occasional operator premium has been charged for the coverage involved, report the claim using the appropriate occasional operator Type of Use code.

If the accident driver is an occasional operator and the claim is assigned to a vehicle for which NO explicit additional occasional operator premium has been charged for the coverage involved, report the claim using the underlying Type of Use code for the vehicle (i.e., principal operator Type of Use code).

Exposure*Premiums*

Term in Months

In order to show the exposure, the "term in months" of the policy must be coded on the premium record. When a cancellation occurs, the "Unexpired Term in Months" must be coded on the return premium (cancellation) record. In other words, code the number of months that the policy is effective on the premium record and the number of months that remain between the cancellation date and the expiry date on the return premium (cancellation) record. A time period of fifteen days or more is considered to be one month.

Two or More Vehicles

When a policy covers two or more individually rated vehicles, each individual coverage or combination of coverages for each one of these vehicles must be reported separately. Cancellations shall be similarly treated.

No Exposure

Report zeroes for the following risks:

- single interest policies
- confiscation and conversion policies
- excess insurance
- fleets on an earnings basis, gross receipts, payroll basis, fronted business, self-insured retention, aggregated occurrence deductible, experience rated fleets or bulk rated
- miscellaneous automobiles

Trailer Indicator

*Premiums
Claims*

Report an indicator denoting whether the reported information reflects an attached trailer.

A non-motorized trailer which can only be moved from one place to another when being towed by a motorized vehicle. The Type of Use to be reported for the trailer is the same Type of Use as reported for the vehicle towing the trailer.

- Vehicle is a private passenger Type of Use 02, the trailer is also a Type of Use 02

- Commercial vehicle is a Type of Use 35, the trailer is also a Type of Use 35

Camper Trailer

A non-motorized trailer with sleeping facilities which can be only be moved from one place to another when being towed by a motorized vehicle. The Type of Use to be reported for the camper trailer is 65. A slide-in truck camper would also be rated as Type of Use 65.

Type of Use 65

Report the Trailer Indicator as a "Y"

Vehicle code blank or Txxx, where the 'x' represents a numerical value

Grid Indicator

*Premiums
Claims*

Enter a code to identify whether the Basic Coverage Premium charged for the private passenger vehicle has been “capped” at the grid level.

Vehicle Use

*Premiums
Claims*

This field is used to identify the use of an individually rated private passenger vehicle.

Number of Other Operators

*Premiums
Claims*

If the rated operator is the principal operator, report the Number of Other Operators used in calculating the rating for the vehicle.

If the rated operator is a separately rated occasional operator, report the Number of Other Occasional Operators used in the calculating the rating for the occasional operator premium.

Other Operators Number of Years Licensed

*Premiums
Claims*

If the rated operator is the principal operator, enter the number of years of driving experience of the other operator, excluding any separately rated occasional operators, having the least number of years experience.

If the rated operator is a separately rated occasional operator, enter the number of years of driving experience of the other operator having the least number of years experience of all occasional operators on the policy to whom the separate rate applies.

Vehicle Indicator (UIP)

Premiums

Enter the vehicle number assigned to the vehicle or vehicles listed on the policy. The number assigned to each vehicle at policy inception must be reported on all subsequent transactions.

First Party Vehicle Indicator (UIP)

Claims

Enter the vehicle indicator corresponding to the vehicle reported on the premium record.

Vehicle Identification Number – VIN (UIP)*Premiums*

Report the vehicle identification number (VIN) as assigned by the vehicle manufacturer and located on the vehicle ownership certificate.

First Party Vehicle Identification Number - VIN (UIP)*Claims*

Report the vehicle identification number of the first party vehicle involved in the accident, as assigned by the vehicle manufacturer. This number is located on the vehicle ownership certificate.

Registrant Identification Number – RIN (UIP)*Premiums*

The registrant identification number (RIN) is issued by Ontario Ministry of Transportation and is used to identify multiple vehicles registered to the same owner. Where the vehicles being reported are registered to various named insureds with different RINs, vehicles must be reported separately with their respective RINs. Additional Vehicle Indicators must be reported correspondingly. For example, if five, or more, RINs are insured under one policy, each RIN must be uniquely identified for Vehicle Indicators “999”, “900”, “901”, “902” and “903”, etc.

Policy Vehicle Status (UIP)*Premiums*

Enter the status of the particular vehicle on the policy after the current transaction. In some circumstances an entire policy will be cancelled, resulting in all of the vehicles becoming uninsured under the policy. In other circumstances an event may take place that results in the discontinuation of coverage for a particular vehicle on the policy without affecting the insured status of the remaining vehicles on the policy.

Mandatory Coverage Indicator (UIP)*Premiums*

Enter an indicator denoting whether the current status of the vehicle on the policy includes mandatory coverage. For the purpose of reporting under this Plan, a vehicle will be deemed to have mandatory coverage if Third Party Liability – Bodily Injury coverage is in force.

Third Party Liability Driving Record*Premiums*

Report the code identifying the driving record used in rating the Third Party Liability premium.

Accident Benefits Driving Record*Premiums*

Report the code identifying the driving record used in rating the Accident Benefits coverage.

Collision/All Perils Driving Record*Premiums*

Report the code identifying the driving record used in rating the Collision coverage.

Claim Driving Record*Claims*

Report the appropriate driving record associated with the coverage, corresponding to the coverage driving record reported for the premium transaction.

DCPD Rate Group Type*Premiums*

For individually rated private passenger vehicles report the code that identifies the rate group type used in rating the DCPD premium.

DCPD Rate Group*Premiums*

For individually rated private passenger vehicles report the rate group corresponding to the rate group type used in rating the DCPD premium.

Accident Benefits Rate Group Type*Premiums*

For individually rated private passenger vehicles report the code that identifies the rate group type used in rating the Accident Benefits premium.

Accident Benefits Rate Group*Premiums*

For individually rated private passenger vehicles report the rate group, corresponding to the Rate Group Type, used in rating the Accident Benefits premium, if any.

Collision/All Perils Rate Group Type*Premiums*

For individually rated private passenger vehicles report the code that identifies the rate group type used in rating the Collision or the All Perils premium.

Collision/All Perils Rate Group*Premiums*

For individually rated private passenger vehicles report the rate group, corresponding to the Rate Group Type, used in rating the Collision or the All Perils premium.

Comprehensive/Specified Perils Rate Group Type*Premiums*

For individually rated private passenger vehicles report the code that identifies the rate group type used in rating the Comprehensive or Specified Perils premium.

Comprehensive/Specified Perils Rate Group*Premiums*

For individually rated private passenger vehicles report the rate group, corresponding to the Rate Group Type, used in rating the Comprehensive or Specified Perils premium.

Multi-Car Discount Indicator*Premiums
Claims*

For individually rated private passenger vehicles report whether a multi-car discount has been applied to the vehicle.

Multi-Line Discount Indicator*Premiums
Claims*

For individually rated private passenger vehicles report whether a multi-line discount has been applied to the vehicle.

Renewal Discount Indicator*Premiums
Claims*

For individually rated private passenger vehicles report whether a renewal discount has been applied to the vehicle.

Winter Tire Discount

*Premiums
Claims*

Enter the actual percentage of the winter tire discount applied to the overall policy. The percentage is to be rounded to the nearest tenth of a percent with the exception of discounts less than 0.05% which should be rounded up. For example, if a 7.45% winter tire discount is offered, then "075" should be reported. The premium amount reported in the relevant premium amount field should be the actual premium amount after application of the winter tire discount.

Winter Tire Discount Indicator

*Premiums
Claims*

For individually rated private passenger vehicles report whether a winter tire discount has been applied to the vehicle.

Claim Coverage Rate Group Type

Claims

Report a code identifying the rate group type used in rating the coverage to which the claim applies:

- DCPD Rate Group Type
- Accident Benefits Rate Group Type
- Collision/All Perils Rate Group Type
- Comprehensive/Specified Perils Rate Group Type

Claim Coverage Rate Group

Claims

Report the rate group used in rating the coverage to which the claim applies:

- DCPD Rate Group
- Accident Benefits Rate Group
- Collision/All Perils Rate Group
- Comprehensive/Specified Perils Rate Group

Operator

The rated operator information reflects the data applicable to the reported risk. If the transaction being reported is of an Occasional Operator, the rated operator information reflects the Occasional Operator, otherwise, it reflects the Principal Operator.

For the purpose of coding Number of Claims and Number of Years Claims Free, a claim means a claim, which was either closed and indemnity payment or remain open, where the operator at the time of the occurrence was deemed to be partly or fully at fault.

Rated Operator Marital Status

*Premiums
Claims*

Report the Marital Status of the Rated Operator.

Number of Claims

*Premiums
Claims*

Report the appropriate code representing the applicable claims experience in the last six years of private passenger vehicle, moped or on-road motorcycle vehicle operation, without any regard to any Accident Forgiveness endorsement or similar policy provision.

If the information being reported reflects a Principal Operator:

Report the appropriate code reflecting the combined Number of Claims in the last six years of all operators on the policy to whom the rate applies, excluding any separately Occasional Operator.

Example

Number of Vehicles	Number of Drivers	Experience	Report as:
1	1	Driver A: 1 claim 4 years ago	1
1	2	Driver A: 1 claim 4 years ago Driver B: 1 claim 2 years ago	2
1	3	Driver A: 3 claims last 6 years Driver B: 4 claims last 6 years Driver C: 3 claims last 6 years	9 (maximum)
2	2	Driver A: 2 claims last 6 years	2
		Driver B: 1 claim last 6 years	1

If the information being reported reflects an Occasional Operator:

Report the appropriate code reflecting the combined Number of Claims in the last six years of all Occasional Operators on the policy to whom the separate rate applies.

Example

Number of Vehicles	Number of Occasional Operators	Experience	Report as:
1	1	Driver O1: 1 claim last 6 years	1
1	2	Driver O1: 1 claim last 6 years Driver O2: 1 claim last 6 years	2
1	1	Driver O1: 1 claim last 6 years	1
	1	Driver O2: 2 claims last 6 years	2
2	1	Driver O1 ¹ : 1 claim last 6 years	1
	1	Driver O2 ² : 1 claim last 6 years	1

1. Assigned to vehicle 1

2. Assigned to vehicle 2

Number of Years Claims Free*Premiums
Claims*

Report the Number of Years of Claims Free private passenger vehicle, moped or on-road motorcycle vehicle operation without regard to any Accident Forgiveness endorsement or similar policy provision.

If the information being reported reflects a Principal Operator:

Report the Number of Years Claims Free operation of the operator with the least number of years of claims free experience of all operators on the policy to whom the rate applies, excluding any separately rated Occasional Operator(s).

Example:

Number of Vehicles	Number of Drivers	Experience	Report as:
1	1	Driver A: 1 claim 3.5 years ago	3
1	2	Driver A: 1 claim 3.5 years ago Driver B: no claims, 30 years licensed	3
2	2	Driver A: 1 claim 3.5 years ago	3
		Driver B: no claims, 30 years licensed	30

If the information being reported reflects an Occasional Operator:

Report the Number of Years Claims Free operation of the operator with the least number of years claims free experience of all occasional operators on the policy to whom the separate rate applies.

Example:

Number of Vehicles	Number of Occasional Operators	Experience	Report as:
1	2	Driver O1: 1 claim 6 months ago Driver O2: no claims, 5 years licensed	0
1	1	Driver O1: 1 claim 6 months ago	0
	1	Driver O2: no claims, 5 years licensed	5

Rated Operator Year of Birth

*Premiums
Claims*

Enter the year of birth of the rated operator.

Rated Operator Gender

*Premiums
Claims*

Enter the gender of the rated operator.

Rated Operator Number of Years Licensed

*Premiums
Claims*

Report the number of consecutive years the rated operator has been legally permitted to operate a private passenger vehicle, moped, or on-road motorcycle in Canada or the U.S.A, not including the number of years the operator held a learner's permit or level 1 license under a graduated licensing system.

Rated Operator Driver Training

*Premiums
Claims*

Enter a code denoting whether the rated operator has graduated from an approved driver training course.

First Chance New Driver Discount

*Premiums
Claims*

Enter an indicator denoting that a First Chance New Driver Discount has been applied, resulting in a reduced premium.

Retiree Discount

*Premiums
Claims*

Enter the actual percentage of the retiree discount applied to basic Accident Benefits coverage that applies to the vehicle. The percentage is to be rounded to the nearest tenth of a percent. For example, if a 7.45% retiree discount is offered on basic Accident Benefits coverage, then “075” should be reported. The premium amount reported in the relevant premium amount field should be the actual premium amount **after** application of the retiree discount.

Clean Driver Indicator (FA)

*Premiums
Claims*

Report an indicator denoting whether the rated operator was rated with a clean driving record (**Facility Association Servicing Carriers only**).

Driver Remedial Training (FA)

*Premiums
Claims*

Report a code denoting whether the rated operator has received remedial driver training.

Insurance Fraud Convictions (FA)

*Premiums
Claims*

Enter a code denoting whether the rated operator has had any insurance fraud convictions.

Number of Accidents (FA)

*Premiums
Claims*

Enter the number of accidents within the last three years for the rated operator.

Number of Type ‘A’ Convictions

*Premiums
Claims*

For all jurisdictions, including Facility Association, enter the number of this type of convictions the rated operator has had within the last three years:

Major - “Convictions for any of the following offences under an Act governing highway traffic or Automobile Insurance Act or Ontario’s Compulsory Automobile Insurance Act (CAIA), other than the Criminal Code (Canada) whether committed within or outside Canada”.

A comprehensive list of specific offences and guidance can be found in:

1. Facility Association Manual of Rules and Rates - Rule 136 - Accident and Conviction Surcharges [for each Jurisdiction](#);
2. Alberta's [Grid Guidance Schedule 4 - Surcharges for Driving Convictions and At-Fault Claims](#); or
3. Alberta's [Technical Guidance](#).

Number of Type 'B' Convictions

*Premiums
Claims*

For all jurisdictions, including Facility Association, enter the number of this type of convictions the rated operator has had within the last three years:

Minor - "Convictions for any moving traffic offence (offences related to the operation of a vehicle) other than those listed as Serious (Criminal Code) or Major, under an Act governing highway traffic, an Automobile Insurance Act or Ontario's Compulsory Automobile Insurance Act (CAIA), other than the Criminal Code (Canada), or for any offences substantially the same whether committed within or outside Canada".

A comprehensive list of specific offences and guidance can be found in:

1. Facility Association Manual of Rules and Rates - Rule 136 - Accident and Conviction Surcharges [for each Jurisdiction](#);
2. Alberta's [Grid Guidance Schedule 4 - Surcharges for Driving Convictions and At-Fault Claims](#); or
3. Alberta's [Technical Guidance](#).

Number of Type 'C' Convictions

*Premiums
Claims*

For all jurisdictions, including Facility Association, enter the number of this type of convictions the rated operator has had within the last three years:

Serious (Criminal Code) - "Convictions for any of the following offences under the Criminal Code of Canada, under an Act governing highway traffic or under any other Act whether the offence was committed within or outside Canada, or any conviction that appears on a Driver Record Abstract that is identified as a Criminal Code conviction."

A comprehensive list of specific offences and guidance can be found in:

1. Facility Association Manual of Rules and Rates - Rule 136 - Accident and Conviction Surcharges [for each Jurisdiction](#);
2. Alberta's [Grid Guidance Schedule 4 - Surcharges for Driving Convictions and At-Fault Claims](#); or
3. Alberta's [Technical Guidance](#).

Operator Grid Level

*Premiums
Claims*

Enter the appropriate Operator Grid Level applicable to the risk.

Principal Operator Name (UIP)

Premiums

The Principal Operator Name may be reported in either a structured or unstructured format. When following the structured format, enter the appropriate information in the following fields: Principal Operator Surname (UIP), Principal Operator First Name (UIP), and Principal Operator Middle Name/Initial (UIP).

When reporting the Principal Operator Name in an unstructured format, the full name is entered in this field.

Principal Operator Surname (UIP)

Premiums

When reporting the Principal Operator Name in a structured format, enter the surname or company name of the principal operator assigned to the vehicle.

Principal Operator First Name (UIP)

Premiums

When reporting the Principal Operator Name in a structured format, enter the first name of the principal operator assigned to the vehicle.

Principal Operator Middle Name/Initial (UIP)

Premiums

When reporting the Principal Operator Name in a structured format, enter the middle name or initial of the principal operator assigned to the vehicle.

Principal Operator Driver License Number (UIP)

Premiums

Enter the principal operator's full driver's license number as defined by the Highway Traffic Act of the appropriate jurisdiction.

Principal Operator Driver License Number Jurisdiction (UIP)

Premiums

Enter the Canada Post two-letter designated code of the jurisdiction that issued the principal operator's driver license.

Coverage

This segment contains information related to coverages in effect and their limits/deductibles and premiums.

Third Party Liability Coverage Code

Premiums

Report the applicable coverage code used in rating the Third Party Liability premium, where such premium is rated on a combined basis.

Third Party Liability Limit Code

Premiums

The Third Party Liability Limit Code identifies the applicable Third Party Liability limit on the policy.

Third Party Liability Limit Amount

Premiums

Report the limit amount used in rating the Third Party Liability premium.

Third Party Liability Premium

Premiums

The premium for Third Party Liability combined coverage associated with the transaction.

Third Party Liability BI Coverage Code

Premiums

Report the applicable coverage code used in rating the Third Party Liability Bodily Injury premium, where such premium is rated on a split basis.

Third Party Liability BI Premium

Premiums

The premium for Third Party Liability Bodily Injury split coverage associated with the transaction.

Third Party Liability PD Coverage Code

Premiums

Report the applicable coverage code used for rating the Third Party Liability Property Damage premium, where such premium is rated on a split basis.

Third Party Liability PD Premium*Premiums*

The premium for Third Party Liability Property Damage split coverage associated with the transaction.

DCPD Coverage Code*Premiums*

Report the applicable coverage code used in rating the Direct Compensation Property Damage (DCPD) premium.

DCPD Deductible Code*Premiums*

Report the applicable code that identifies the deductible used in rating the DCPD premium.

DCPD Deductible Amount*Premiums*

Report the deductible amount used in rating the DCPD premium.

For definition of standard/ non-standard deductible, refer to ["Deductibles" on page 30](#).

DCPD Premium*Premiums*

The premium for DCPD coverage associated with this transaction.

Uninsured Automobile Coverage Code*Premiums*

Report the applicable code corresponding to the coverage used in rating the Uninsured Automobile premium.

Uninsured Automobile Premium*Premiums*

The premium for Uninsured Automobile coverage associated with this transaction.

Underinsured Motorist Coverage Code*Premiums*

Report the applicable code corresponding to the coverage used in rating the Underinsured Motorist premium.

Prior to January 1, 2008, the code also identifies the applicable limit.

Underinsured Motorist Limit Amount*Premiums*

Report the limit amount used in rating the Underinsured Motorist premium.

Underinsured Motorist Premium*Premiums*

The premium for Underinsured Motorist coverage associated with this transaction.

Accident Benefits Coverage Code*Premiums*

Report the code corresponding to the coverage used in rating the Accident Benefits Coverage premium.

Accident Benefits Premium*Premiums*

The premium for Accident Benefits coverage associated with this transaction.

Collision Coverage Code*Premiums*

Report the code corresponding to the coverage used in rating the Collision premium.

Prior to January 1, 2008, the code also identifies the applicable deductible.

All Perils Coverage Code*Premiums*

Report the code corresponding to the coverage used in rating the All Perils coverage premium.

Prior to January 1, 2008, the code also identifies the applicable deductible.

Collision/All Perils Deductible Amount*Premiums*

Report the deductible amount used in rating the Collision or All Perils premium.

For definition of standard/ non-standard deductible, refer to "[Deductibles](#)" on page 30.

Collision/All Perils Premium*Premiums*

The premium for Collision or All Perils coverage associated with this transaction.

Comprehensive Coverage Code*Premiums*

Report the code corresponding to the coverage used in rating the Comprehensive coverage premium.

Prior to January 1, 2008, the code also identifies the applicable deductible.

Specified Perils Coverage Code*Premiums*

Report the code corresponding to the coverage used in rating the Specified Perils coverage premium.

Prior to January 1, 2008, the code also identifies the applicable deductible.

Comprehensive/Specified Perils Deductible Amount*Premiums*

Report the deductible amount used in rating the Comprehensive or Specified Perils premium.

For definition of standard/ non-standard deductible, refer to ["Deductibles" on page 30](#).

Comprehensive/Specified Perils Premium*Premiums*

The premium for Comprehensive or Specified Perils coverage associated with the transaction.

Added Coverage to Offset Tort Deductible*Premiums
Claims*

Report a code signifying the presence of OPCF48 / OEF87 - Added Coverage to Offset Tort Deductible.

Accident Benefits Optional Coverage - M&R*Premiums
Claims*

Report a code signifying the presence of basic or optional Medical and Rehabilitation sub-coverages.

Accident Benefits Optional Coverage - AC*Premiums
Claims*

Report a code signifying the presence of basic or optional Attendant Care sub-coverages.

Accident Benefits Optional Coverage - C,H&HM

*Premiums
Claims*

Report a code signifying the presence of basic or optional Caregiver, Housekeeping and Home Maintenance sub-coverages.

Accident Benefits Optional Coverage - IR

*Premiums
Claims*

Report a code signifying the presence of basic or optional Income Replacement sub-coverages.

Accident Benefits Optional Coverage - DC

*Premiums
Claims*

Report a code signifying the presence of optional Dependent Care sub-coverages.

Accident Benefits Optional Coverage - D&F

*Premiums
Claims*

Report a code signifying the presence of basic or optional Death and Funeral sub-coverages.

Accident Benefits Optional Coverage - I

*Premiums
Claims*

Report a code signifying the presence of basic or optional Indexation sub-coverages.

Accident Benefits Optional Coverage - M&R and AC

*Premiums
Claims*

Report a code signifying the presence of basic or optional Medical and Rehabilitation and Attendant Care sub-coverages.

Accident Benefits Optional Coverage - CI

*Premiums
Claims*

Report a code signifying the presence of basic or optional Catastrophic Impairment sub-coverages.

Claim Detail

This segment contains information related to the insured loss, the claim identification, date of loss, coverage, kind of loss and loss amounts.

Claim Control Id

Claims

This field is used by insurers to aid in error handling and may contain a branch code or any other code that the insurer may find useful when handling error transactions.

Claim Identification Digit

Claims

This field is used by insurers to aid in error handling and may be used in addition to Claim Control Id to report a unique code that the insurer may find useful when handling error transactions.

Claim Identification

Claims

Report a uniform and unique identification number by coverage within an accident.

Note: The Claim Identification MUST uniquely identify the specific occurrence of the claim and MUST NOT be used to identify claim participants or claim payments.

Accident Date

Claims

Report the date on which the accident occurred.

Claim Count

Claims

Counting Claims

Claims are counted jointly by Coverage and Kind of Loss (not by claimant) by each insurer for each occurrence. For a given coverage and Kind of Loss combination where there is more than one claimant, Claim Count is reported as "1" for the first indemnity payment, regardless of claimant. The Claim Count is "0" for all subsequent payments for that claimant or for any other claimants.

Where there is more than one Coverage and Kind of Loss combination arising from the same occurrence, each combination must be reported in a separate transaction and the above method for counting applies to each combination.

The Claim Count is "1" for outstanding reserve amounts, which must also be reported in a

separate transaction for each combination, until the first indemnity payment for that combination has been reported, after which time Claim Count should be "0".

If a claim segment (combination of Coverage and Kind of Loss) that has been closed is subsequently reopened, then the Claim Count would be "0", unless a previous salvage or subrogation recovery payment transaction has reversed the previously reported count (Total Recovery).

Reserves

On the first reserve transaction, where no indemnity payment has been made, and on all subsequent reserve transactions until an indemnity payment is made, Claim Count is "1". After an indemnity payment is made, Claim Count will be "0" on all subsequent reserve transactions.

Claim Payments

On the first indemnity payment, Claim Count is "1". After an indemnity payment is made, Claim Count will be "0" on all subsequent payments.

On claims where there are no indemnity payments (expenses only), Claim Count is always "0".

The one exception to this rule concerns situations involving a total recovery, where Claim Count will be "1". This is because total recoveries effectively reverse the original claim and reduce the original amount and claim count to zero.

Kind of Loss Code*Claims*

Report the appropriate Kind of Loss associated with the coverage.

Claim Coverage Code*Claims*

Enter the coverage code to which the claim applies.

Excluded Driver*Claims*

An indicator denoting whether the driver of the vehicle at the time of the accident was an “excluded driver” under the policy.

Claim Third Party Liability Limit Code*Claims*

Enter the code identifying the third party limit used in rating the coverage to which the claim applies.

Claim Coverage Limit Amount*Claims*

Enter the limit amount used in rating the coverage to which the claim applies. Note that limit amount is applicable to Third Party Liability and Underinsured Motorist coverages.

Claim DCPD Deductible Code*Claims*

Enter the applicable deductible code for DCPD claims.

Claim Deductible Amount*Claims*

Enter the deductible amount used in rating the coverage to which the claim applies. Note that deductible amount is applicable to DCPD, Collision/All Perils and Comprehensive/Specified Perils coverages.

A non-standard deductible is any other one - i.e. any deductible which cannot be expressed as a fixed dollar amount which may be different whether one is rating the risk or adjusting the claim; examples of such deductibles include disappearing deductibles which vary with the size of the claim and discounted deductibles, where the actual claims deductible would vary according to the claimants's driving experiences.

Example:

Insured has a \$500 Collision deductible.

A Collision claim occurs. The \$500 Collision deductible with Coverage Code '39' is reported on the premium record.

If the insured has a disappearing deductible, Coverage Code '39' must be reported on the claims record and the deductible amount is the amount used in adjusting the claim.

First Party Vehicle Total Loss Indicator*Claims*

Enter the code denoting whether the first party vehicle sustained a total loss or a partial loss.

Loss Amount*Claims*

Enter the loss amount paid or outstanding associated with the transaction.

Expense Amount*Claims*

Enter the allocated loss adjustment expense amount paid or outstanding that is associated with the transaction and allocated to the claim.

Accident Benefits Catastrophic Impairment Indicator*Claims*

Report a code signifying whether any claimants associated with the claim sustained catastrophic injuries.

Accident Benefits Minor Injury Indicator*Claims*

Report a code signifying whether any claimants associated with the claim sustained minor injuries.

Claim Participant (UIP)

Fields within this segment are related to identifying claim participants and certain characteristics related to the insured loss; they are exclusively for UIP use.

First Party Accident Driver Name (UIP)

Claims

The First Party Accident Driver Name may be reported in either a structured or unstructured format. When following the structured format, enter the appropriate information in the following fields: First Party Accident Driver Surname (UIP), First Party Accident Driver First Name (UIP), and First Party Accident Driver Middle Name/Initial (UIP).

When reporting First Party Accident Driver Name using an unstructured format, the full name is entered in this field.

First Party Accident Driver Surname (UIP)

Claims

If First Party Accident Driver Name is reported in a structured format, enter the surname of the driver.

First Party Accident Driver First Name (UIP)

Claims

If First Party Accident Driver Name is reported in a structured format, enter the first name of the driver.

First Party Accident Driver Middle Name/Initial (UIP)

Claims

If the First Party Accident Driver Name is reported in a structured format, enter the middle name/initial of the driver.

First Party Accident Driver License Number (UIP)

Claims

Enter the full driver's license number of the first party accident driver. (Note that "driver's license" refers to a license issued to drive a motor vehicle on a highway, as defined by the Highway Traffic Act of each jurisdiction.)

Refer to the Field Codes Section of this Plan when dealing with special circumstances, including situations where the first party accident driver does not hold a driver's license.

First Party Accident Driver License Number Jurisdiction (UIP)

Claims

Report the code denoting the jurisdiction that issued the first party accident driver's license.

First Party Degree at Fault (UIP)*Claims*

Enter the degree to which the person named in First Party Accident Driver was at fault.

Third Party Accident Driver Name (UIP)*Claims*

Third Party Accident Driver Name may be reported in either a structured or unstructured format. When following the structured format, enter the information in the following fields: Third Party Accident Driver

Surname (UIP), Third Party Accident Driver First Name (UIP) and Third Party Accident Driver Middle Name / Initial (UIP).

When reporting the third party accident driver's name in an unstructured format, the full name is entered in this field.

Third Party Accident Driver Surname (UIP)*Claims*

If the name of the third party driver involved in the accident is reported in a structured format, enter the surname of the third party accident driver in this field.

Third Party Accident Driver First Name (UIP)*Claims*

If the name of the third party driver involved in the accident is reported in a structured format, enter the first name of the third party accident driver in this field.

Third Party Accident Driver Middle Name / Initial (UIP)*Claims*

If the name of the third party driver involved in the accident is reported in a structured format, enter the middle name/initial of the third party accident driver in this field.

Third Party Accident Driver License Number (UIP)*Claims*

Enter the full driver's license number of the person named under Third Party Accident Driver. (Note that "driver's license" refers to a license issued to drive a motor vehicle on a highway, as defined by the Highway Traffic Act of each jurisdiction.)

Refer to the Field Codes section of this Plan when dealing with special circumstances, including situations where the third party accident driver does not hold a driver's license.

Third Party Accident Driver License Number Jurisdiction (UIP)*Claims*

Report the code denoting the jurisdiction that issued the license to the third party accident driver.

Third Party Insuring Company Identification (UIP)*Claims*

Enter the company identification code to indicate the third party accident driver's insurance company.

Third Party Policy Identification (UIP)*Claims*

Enter the policy identification to identify the third party accident driver's policy.

Third Party Vehicle Utilization Type (UIP)*Claims*

Enter the code denoting the type of vehicle driven by the third party accident driver.

Accident Benefits M, R & AC Coverage Code*Premiums*

Report the applicable coverage code used in rating the Accident Benefits Medical, Rehabilitation and Attendant Care premium.

Accident Benefits M, R & AC Limit Amount*Premiums*

Report the limit amount used in rating the Accident Benefits Medical, Rehabilitation and Attendant Care premium.

Accident Benefits M, R & AC Premium*Premiums*

The premium for Accident Benefits Medical, Rehabilitation and Attendant Care coverage associated with the transaction.

Optional Accident Benefits V Sub-coverage Code*Premiums*

Report the applicable coverage code used in rating the Optional Accident Benefits Expenses for Visitors premium.

Optional Accident Benefits V Limit Amount*Premiums
Claims*

Report the limit amount used in rating the Optional Accident Benefits Expenses for Visitors premium.

Optional Accident Benefits V Premium*Premiums*

The premium for Optional Accident Benefits Expenses for Visitors sub-coverage associated with the transaction.

Optional Accident Benefits R Sub-coverage Code*Premiums*

Report the applicable coverage code used in rating the Accident Benefits Replacement of clothing, hearing aids, glasses and other devices premium.

Optional Accident Benefits R Limit Amount*Premiums
Claims*

Report the limit amount used in rating the Accident Benefits Replacement of clothing, hearing aids, glasses and other devices premium.

Optional Accident Benefits R Premium*Premiums*

The premium for Accident Benefits Replacement of clothing, hearing aids, glasses and other devices sub-coverage associated with the transaction.

Optional Accident Benefits CI Sub-coverage Code*Premiums*

Report the applicable coverage code used in rating the Optional Accident Benefits Catastrophic Impairment premium.

Optional Accident Benefits CI Limit Amount*Premiums
Claims*

Report the limit amount used in rating the Optional Accident Benefits Catastrophic Impairment premium.

Optional Accident Benefits CI Premium*Premiums*

The premium for Optional Accident Benefits Catastrophic Impairment sub-coverage associated with the transaction.

Optional Accident Benefits C Sub-coverage Code*Premiums*

Report the applicable coverage code used in rating the Optional Accident Benefits Caregiver premium.

Optional Accident Benefits C Weekly Limit Amount*Premiums
Claims*

Report the weekly limit amount used in rating the Optional Accident Benefits Caregiver premium.

Optional Accident Benefits C Premium*Premiums*

The premium for Optional Accident Benefits Caregiver sub-coverage associated with the transaction.

Optional Accident Benefits H&HM Sub-coverage Code*Premiums*

Report the applicable coverage code used in rating the Optional Accident Benefits Housekeeping and Home Maintenance premium.

Optional Accident Benefits H&HM Weekly Limit Amount*Premiums
Claims*

Report the weekly limit amount used in rating the Optional Accident Benefits Housekeeping and Home Maintenance premium.

Optional Accident Benefits H&HM Premium*Premiums*

The premium for Optional Accident Benefits Housekeeping and Home Maintenance sub-coverage associated with the transaction.

Optional Accident Benefits IR Sub-coverage Code*Premiums*

Report the applicable coverage code used in rating the Optional Accident Benefits Income Replacement premium.

Optional Accident Benefits IR Weekly Limit Amount*Premiums
Claims*

Report the weekly limit amount used in rating the Optional Accident Benefits Income Replacement premium.

Optional Accident Benefits IR Premium*Premiums*

The premium for Optional Accident Benefits Income Replacement sub-coverage associated with the transaction.

Optional Accident Benefits NE Sub-coverage Code*Premiums*

Report the applicable coverage code used in rating the Optional Accident Benefits Non Earner premium.

Optional Accident Benefits NE Weekly Limit Amount*Premiums
Claims*

Report the weekly limit amount used in rating the Optional Accident Benefits Non Earner premium.

Optional Accident Benefits NE Premium*Premiums*

The premium for Optional Accident Benefits Non Earner sub-coverage associated with the transaction.

Optional Accident Benefits EE Sub-coverage Code*Premiums*

Report the applicable coverage code used in rating the Optional Accident Benefits Loss of Educational Expense premium.

Optional Accident Benefits EE Limit Amount*Premiums
Claims*

Report the limit amount used in rating the Optional Accident Benefits Loss of Educational Expense premium.

Optional Accident Benefits EE Premium*Premiums*

The premium for Optional Accident Benefits Loss of Educational Expense sub-coverage associated with the transaction.

Optional Accident Benefits DC Sub-coverage Code*Premiums*

Report the applicable coverage code used in rating the Optional Accident Benefits Dependent Care premium.

Optional Accident Benefits DC Weekly Limit Amount*Premiums
Claims*

Report the weekly limit amount used in rating the Optional Accident Benefits Dependent Care premium.

Optional Accident Benefits DC Premium*Premiums*

The premium for Optional Accident Benefits Dependent Care sub-coverage associated with the transaction.

Optional Accident Benefits D Sub-coverage Code*Premiums*

Report the applicable coverage code used in rating the Optional Accident Benefits Death premium.

Optional Accident Benefits D Spouse Limit Amount*Premiums
Claims*

Report the limit amount used in rating the Optional Accident Benefits Death of Spouse premium.

Optional Accident Benefits D Dependent Limit Amount*Premiums
Claims*

Report the limit amount used in rating the Optional Accident Benefits Death of Dependent premium.

Optional Accident Benefits D Premium*Premiums*

The premium for Optional Accident Benefits Death sub-coverage associated with the transaction.

Optional Accident Benefits F Sub-coverage Code*Premiums*

Report the applicable coverage code used in rating the Optional Accident Benefits Funeral Expense premium.

Optional Accident Benefits F Limit Amount*Premiums
Claims*

Report the limit amount used in rating the Optional Accident Benefits Funeral Expense premium.

Optional Accident Benefits F Premium

Premiums

The premium for Optional Accident Benefits Funeral Expense sub-coverage associated with the transaction.

Optional Accident Benefits I Sub-coverage Code

Premiums

CHAPTER 5 FIELD CODES

This section contains the valid codes for each required field. It also contains information related to the requirements for the fields for various vehicle classes, type of uses and effective dates.

It also includes references to specific requirements for different jurisdictions.

The symbol “√” is used to indicate that a field is required and “O” is used to indicate that a field is optional under the specific circumstance.

Other nomenclature used in the Field Code tables is:

Field Format – this defines the format of the field as either:

- CHAR – can contain any valid character, including number
- NUM – can only contain numbers 0 – 9
- DATE – Can contain a date in the relevant format i.e., (CCYYMMDD, CCYYMM as specified in each table)

Field Alignment – this specifies whether the information in the field must be left- or right-justified if the value entered is less than the size of the field.

Fill Character – this specifies the character to use if the value entered is less than the size of the field.

Field Size – Self-explanatory

Field Position – Self-explanatory

Applicable Vehicle Class – is used to signify the type of vehicle class, i.e.,

- **Individually Rated** – An individually rated vehicle, including farmers, not on a fleet policy.
- **Fleet Rated on a per vehicle basis** – A fleet policy of individually scheduled/ rated vehicles.
- **Fleet Rated on a bulk basis** – A fleet policy rated on an earnings basis, gross receipts, payroll basis, fronted business, self-insured retention, aggregated occurrence deductible, experience rated fleets or bulk rated for each Type of Use must be reported as Type of Business 3.
- **Miscellaneous** – Miscellaneous policies other than Individually rated or fleet rated.
- **Private Passenger Vehicles** – Private Passenger type vehicles (i.e., Type of Use 01 – 19)
- **Other Personal Use Vehicles** – Motorcycles, ATVs, snow vehicles, mopeds, trailer homes, motor homes, antiques and classic automobiles
- **Commercial** – All Commercial type of use vehicles

- **Public Automobiles** – Ambulances, daily rental vehicles, funeral hearses, private buses, public buses, school buses, taxis
- **Garages, Manufacturers and Automobile Dealers** – Self explanatory
- **Driver and Non-owned policies** – Self explanatory

Codes in the tables are frequently associated with either a stop date or a start date, which signifies if the code is valid only for a particular time period. Fields associated with the policy are, generally, using Policy Effective Dates and fields associated with a particular claims event are, generally, using Accident Dates.

- Where a start date is specified, it must be interpreted as including the specified date.
- Where a stop date is specified, it must be interpreted as NOT including the specified date.

Standard characters; where the Field Code tables are referring to Standard characters, they are:

- A – Z, a – z, 0 – 9, blank, period (.), plus (+), ampersand (&), dollar sign (\$), asterisk (*), dash (-), slash (/), comma (,), percent sign (%), number sign (#) and “at” sign (@)

Codes which are not used for current premium and/or claim transactions (i.e. these are codes which are not valid for policies or claims after Jan.1, 2008) are shaded in the Field Codes section. Additionally, the document includes hyperlinks between Field Definitions and the corresponding Field Codes.

Each field code is linked to its corresponding validity error code via a hyperlink.
